#### acc. to OSHA HCS (29CFR 1910.1200) and WHMIS 2015 Regulations

Printing date: March 01, 2019

Revision: March 01, 2019

#### Trade name: Ammonium Thiocyanate, ACS

(Cont'd. of page 1)

P280	Wear protective gloves and eye protection.
P301+P312	If swallowed: Call a poison center/doctor if you feel unwell.
P330	Rinse mouth.
P302+P352	If on skin: Wash with plenty of water.
P304+P340	IF INHALED: Remove person to fresh air and keep comfortable for breathing.
P305+P351+P338	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if
	present and easy to do. Continue rinsing.
P310	Immediately call a poison center/doctor.
P362+P364	Take off contaminated clothing and wash it before reuse.
P501	Dispose of contents/container in accordance with local/regional/national/international
	regulations.
· Additional inform	ation: Contact with acids liberates very toxic gas.

· Other hazards There are no other hazards not otherwise classified that have been identified.

#### **3 Composition/information on ingredients**

#### · Chemical characterization: Substances

· CAS No. Description

1762-95-4 ammonium thiocyanate

#### 4 First-aid measures

#### · Description of first aid measures

- · General information: Take affected persons out into the fresh air.
- After inhalation: Supply fresh air; consult doctor in case of complaints.
- · After skin contact:

Brush off loose particles from skin. Rinse with warm water. If skin irritation continues, consult a doctor. · After eye contact: Protect unharmed eye. Remove contact lenses if worn. Rinse opened eye for several minutes under running water. Then consult a doctor. · After swallowing: Rinse out mouth and then drink plenty of water. Do not induce vomiting; immediately call for medical help. · Most important symptoms and effects, both acute and delayed: Breathing difficulty Coughing Strong irritant with the danger of severe eye injury. Causes mild skin irritation. · Danger: Causes serious eye damage. Harmful if swallowed, in contact with skin or if inhaled. · Indication of any immediate medical attention and special treatment needed: Medical supervision for at least 48 hours.

If necessary oxygen respiration treatment.

#### acc. to OSHA HCS (29CFR 1910.1200) and WHMIS 2015 Regulations

Printing date: March 01, 2019

Revision: March 01, 2019

#### Trade name: Ammonium Thiocyanate, ACS

(Cont'd. of page 2)

#### **5** Fire-fighting measures

- · Extinguishing media
- Suitable extinguishing agents: Use fire fighting measures that suit the environment.
- · For safety reasons unsuitable extinguishing agents: No relevant information available.
- · Special hazards arising from the substance or mixture
- During heating or in case of fire poisonous gases are produced.
- · Advice for firefighters
- · Protective equipment:

Wear self-contained respiratory protective device. Do not inhale explosion gases or combustion gases. Wear fully protective suit.

#### 6 Accidental release measures

• Personal precautions, protective equipment and emergency procedures Ensure adequate ventilation.

For large spills, wear protective clothing.

For large spills, use respiratory protective device against the effects of fumes/dust/aerosol.

• Environmental precautions

Do not allow undiluted product or large quantities of it to reach ground water, water course or sewage system.

• Methods and material for containment and cleaning up Pick up mechanically. Sweep up and place into an appropriate container.

Send for recovery or disposal in suitable receptacles.

• Reference to other sections See Section 7 for information on safe handling. See Section 8 for information on personal protection equipment.

See Section 13 for disposal information.

#### 7 Handling and storage

#### · Handling

· Precautions for safe handling:

Any deposit of dust which cannot be avoided must be regularly removed.

Do not dry clean dust covered objects and floors. Wash thoroughly with plenty of water.

- Use only in well ventilated areas.
- · Information about protection against explosions and fires: No special measures required.

#### · Conditions for safe storage, including any incompatibilities

- Requirements to be met by storerooms and receptacles: No special requirements.
- · Information about storage in one common storage facility:

Do not store together with acids.

Store away from foodstuffs.

Store away from oxidizing agents.

- Further information about storage conditions: Keep containers tightly sealed.
- · Specific end use(s) No relevant information available.

(Cont'd. on page 4)

acc. to OSHA HCS (29CFR 1910.1200) and WHMIS 2015 Regulations

Printing date: March 01, 2019

Revision: March 01, 2019

Trade name: Ammonium Thiocyanate, ACS

(Cont'd. of page 3)

#### 8 Exposure controls/personal protection

#### · Control parameters

- Components with limit values that require monitoring at the workplace: The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace.
- · Exposure controls

#### · General protective and hygienic measures:

The usual precautionary measures for handling chemicals should be followed.

Keep away from foodstuffs, beverages and feed.

Wash hands before breaks and at the end of work.

Do not inhale gases / fumes / aerosols.

Avoid contact with the eyes and skin.

- Engineering controls: Provide adequate ventilation.
- · Breathing equipment:

Not required under normal conditions of use.

Use suitable respiratory protective device when high concentrations are present.

· Protection of hands:

Protective gloves

Material of gloves
 Nitrile rubber, NBR
 Neoprene gloves

Laminated film gloves.

Natural rubber, NR

Sensibilization by the components in the glove materials is possible.

· Eye protection:

Safety glasses

Follow relevant national guidelines concerning the use of protective eyewear.

· Body protection: Protective work clothing

• Limitation and supervision of exposure into the environment No relevant information available.

# 9 Physical and chemical properties • Information on basic physical and chemical properties • Appearance: Form: Powder Color: White • Odor: Characteristic • Odor threshold: Not determined.

#### acc. to OSHA HCS (29CFR 1910.1200) and WHMIS 2015 Regulations

Printing date: March 01, 2019

Revision: March 01, 2019

· pH-value:	Not applicable.	
<ul> <li>Melting point/Melting range:</li> </ul>	150 °C (302 °F)	
· Boiling point/Boiling range:	Not determined.	
· Flash point:	The product is not flammable.	
$\cdot$ Flammability (solid, gaseous):	Product is not flammable.	
· Auto-ignition temperature:	Not determined.	
· Decomposition temperature:	Not determined.	
· Danger of explosion:	Product does not present an explosion hazard.	
· Explosion limits		
Lower:	Not determined.	
Upper:	Not determined.	
<ul> <li>Oxidizing properties:</li> </ul>	Non-oxidizing.	
· Vapor pressure:	Not determined.	
· Density at 20 °C (68 °F):	1.31 g/cm³ (10.93 lbs/gal)	
· Relative density:	Not determined.	
<ul> <li>Vapor density:</li> </ul>	Not applicable.	
· Evaporation rate:	Not applicable.	
· Solubility in / Miscibility with		
Water:	Soluble.	
· Partition coefficient (n-octanol/w	vater): Not determined.	
· Viscosity		
Dynamic:	Not applicable.	
Kinematic:	Not applicable.	
<ul> <li>Other information</li> </ul>	No relevant information available.	

#### 10 Stability and reactivity

- · Reactivity: No relevant information available.
- Chemical stability: Stable under normal temperatures and pressures.
- Thermal decomposition / conditions to be avoided: No decomposition if used and stored according to specifications.

#### · Possibility of hazardous reactions

- Contact with acids liberates very toxic gas.
- Toxic fumes may be released if heated above the decomposition point.
- Reacts with oxidizing agents.
- · Conditions to avoid No relevant information available.
- · Incompatible materials No relevant information available.
- · Hazardous decomposition products
- Nitrogen oxides

Hydrogen cyanide (prussic acid)

- · Toxicity
- · Aquatic toxicity No relevant information available.
- · Persistence and degradability No relevant information available.
- · Bioaccumulative potential: No relevant information available.
- · Mobility in soil: No relevant information available.
- · Additional ecological information
- · General notes:

Do not allow undiluted product or large quantities of it to reach ground water, water course or sewage system.

- · Results of PBT and vPvB assessment
- · PBT: Not applicable.
- · **vPvB:** Not applicable.
- · Other adverse effects No relevant information available.

#### 13 Disposal considerations

#### · Waste treatment methods

· Recommendation:

Must not be disposed of together with household garbage. Do not allow product to reach sewage system. The user of this material has the responsibility to dispose of unused material, residues and containers in compliance with all relevant local, state and federal laws and regulations regarding treatment, storage and disposal for hazardous and nonhazardous wastes.

#### · Uncleaned packagings

- · Recommendation: Disposal must be made according to official regulations.
- Recommended cleansing agent: Water, if necessary with cleansing agents.
