According to OSHA Hazard Communication Standard, 29 CFR 1910.1200

Initial preparation date: 02.08.2018

# **Tartaric Acid Rgt,ACS**

#### **SECTION 1: Identification**

#### **Product identifier**

Product name: Tartaric Acid Rgt,ACS Product code: TA2000

# Recommended use of the product and restriction on use

Relevant identified uses: Laboratory Uses advised against: Not determined or not applicable. Reasons why uses advised against: Not determined or not applicable.

#### Manufacturer or supplier details

Manufacturer: United States AquaPhoenix Scientific, Inc. 860 Gitts Run Road Hanover, PA 17331 1-717-632-1291

# Emergency telephone number: United States ChemTel Inc +1(800)255-3924 +1(813)248-0585

#### SECTION 2: Hazard(s) identification

#### **GHS** classification:

Combustible dust Serious eye damage, category 1

# Label elements

# Hazard pictograms:

Signal word: Danger

#### Hazard statements:

H900 May form combustible dust concentrations in air

#### H318 Causes serious eye damage Precautionary statements:

P280 Wear protective gloves/protective clothing/eye protection/face protection

P305+P351+P338+P310 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER or doctor/physician. **Hazards not otherwise classified:** None

# SECTION 3: Composition/information on ingredients

| Identification | Name | Weight % |
|----------------|------|----------|
|                |      |          |

Page 1 of 8

# According to OSHA Hazard Communication Standard, 29 CFR 1910.1200

#### Initial preparation date: 02.08.2018

# Tartaric Acid Rgt,ACS

| CAS number:<br>87-69-4 | Tartaric Acid | 100 |
|------------------------|---------------|-----|

#### Additional Information: None

# **SECTION 4: First aid measures**

#### **Description of first aid measures**

#### **General notes:**

Not determined or not applicable.

#### After inhalation:

Loosen clothing as necessary and position individual in a comfortable position Maintain an unobstructed airway

Get medical advice/attention if you feel unwell

### After skin contact:

Rinse affected area with soap and water If symptoms develop or persist, seek medical attention

#### After eye contact:

Rinse/flush exposed eye(s) gently using water for 15-20 minutes If symptoms develop or persist, seek medical attention Remove contact lens(es) if able to do so during rinsing Immediately call a POISON CONTROL CENTER or seek medical attention

#### After swallowing:

Rinse mouth thoroughly Seek medical attention if irritation, discomfort, or vomiting persists

#### Most important symptoms and effects, both acute and delayed

#### Acute symptoms and effects:

Not determined or not applicable.

#### Delayed symptoms and effects:

Not determined or not applicable.

#### Immediate medical attention and special treatment

#### **Specific treatment:**

Not determined or not applicable.

#### Notes for the doctor:

Not determined or not applicable.

# **SECTION 5: Firefighting measures**

#### Extinguishing media

#### Suitable extinguishing media:

Use appropriate fire suppression agents for adjacent combustible materials or sources of ignition

### Unsuitable extinguishing media:

Not determined or not applicable.

#### Specific hazards during fire-fighting:

Thermal decomposition can lead to release of irritating gases and vapors High concentrations of dust may lead to combustible mixtures with air

#### Special protective equipment for firefighters:

Use typical firefighting equipment, self-contained breathing apparatus, special tightly sealed suit

### Special precautions:

According to OSHA Hazard Communication Standard, 29 CFR 1910.1200

# Initial preparation date: 02.08.2018

### Tartaric Acid Rgt,ACS

Avoid generating dust; fine dust dispersed in air in sufficient concentrations, and in the presence of an ignition source is a potential dust explosion hazard Carbon monoxide and carbon dioxide may form upon combustion Heating causes a rise in pressure, risk of bursting and combustion

# **SECTION 6: Accidental release measures**

#### Personal precautions, protective equipment and emergency procedures:

Ensure adequate ventilation

Ensure air handling systems are operational

Wear protective eye wear, gloves and clothing

Wear dust mask or respirator

Dust Deposits should not be allowed to accumulate on surfaces, as these may form an explosive mixture if they are released into the atmosphere in sufficient concentration

#### Environmental precautions:

Should not be released into the environment Prevent from reaching drains, sewer or waterway

#### Methods and material for containment and cleaning up:

Wear protective eye wear, gloves and clothing Wear dust mask or respirator Prevent generation of combustible dust in air mixtures Sweep or scoop up solid material while minimizing dust generation Dispose of contents / container in accordance with local regulations

#### **Reference to other sections:**

Not determined or not applicable.

#### **SECTION 7: Handling and storage**

#### Precautions for safe handling:

Use only with adequate ventilation.

Avoid breathing dust.

Do not eat, drink, smoke or use personal products when handling chemical substances.

Routine housekeeping should be instituted to ensure that dusts do not accumulate on surfaces.

Dry powders can build static electricity charges when subjected to the friction of transfer and mixing operations.

Provide adequate precautions, such as electrical grounding and bonding, or inert atmospheres. Prevent generation of combustible dust in air mixtures.

#### Conditions for safe storage, including any incompatibilities:

Keep container tightly sealed.

Keep container dry.

Store in a cool, well-ventilated area.

#### **SECTION 8: Exposure controls/personal protection**

Only those substances with limit values have been included below.

#### **Occupational Exposure limit values:**

No occupational exposure limits noted for the ingredient(s).

#### **Biological limit values:**

No biological exposure limits noted for the ingredient(s).

#### Information on monitoring procedures:

Monitoring of the concentration of substances in the breathing zone of workers or in the general workplace

According to OSHA Hazard Communication Standard, 29 CFR 1910.1200

Initial preparation date: 02.08.2018

### Tartaric Acid Rgt,ACS

may be required to confirm compliance with an OEL and adequacy of exposure controls. Biological monitoring may also be appropriate for some substances.

#### Appropriate engineering controls:

Emergency eye wash fountains and safety showers should be available in the immediate vicinity of use or handling.

Provide exhaust ventilation or other engineering controls to keep the airborne concentrations of vapor and mists below the applicable workplace exposure limits (Occupational Exposure Limits-OELs) indicated above. It is recommended that all dust control equipment such as local exhaust ventilation and material transport systems involved in handling of this product contain explosion relief vents or an explosion suppression system or an oxygen- deficient environment.

Ensure that dust-handling systems (such as exhaust ducts, dust collectors, vessels, and processing equipment) are designed in a manner to prevent the escape of dust into the work area (i.e., there is no leakage from the equipment).

#### Personal protection equipment

#### Eye and face protection:

Safety goggles or glasses, or appropriate eye protection.

#### Skin and body protection:

Select glove material impermeable and resistant to the substance.

Wear appropriate clothing to prevent any possibility of skin contact.

### **Respiratory protection:**

If engineering controls do not maintain airborne concentrations below recommended exposure limits (where applicable) or to an acceptable level (in countries where exposure limits have not been established), an approved respirator must be worn.

#### General hygienic measures:

Avoid contact with skin, eyes and clothing. Wash hands before breaks and at the end of work. Wash contaminated clothing before reuse.

#### SECTION 9: Physical and chemical properties

# Information on basic physical and chemical properties

| White crystals                      |
|-------------------------------------|
| Odorless                            |
| Not determined                      |
| 1.0 - 2 at 150 g/l at 25 °C (77 °F) |
| 170 - 172 °C (338 - 342 °F)         |
| Not determined                      |
| 150 °C (302 °F)                     |
| Not determined                      |
| 5.18 - (Air = 1.0)                  |
| Not determined                      |
| Not determined                      |
| Material is water soluble           |
|                                     |

#### Other information

# **SECTION 10: Stability and reactivity**

#### **Reactivity:**

Does not react under normal conditions of use and storage.

#### **Chemical stability:**

Stable under normal conditions of use and storage.

#### Possibility of hazardous reactions:

None under normal conditions of use and storage.

### **Conditions to avoid:**

Prevent generation of combustible dust in air mixtures.

#### Incompatible materials:

None known.

#### Hazardous decomposition products:

None known.

#### **SECTION 11: Toxicological information**

# Acute toxicity

Assessment: Based on available data, the classification criteria are not met.

Product data: No data available.

Substance data: No data available.

# Skin corrosion/irritation

Assessment: Based on available data, the classification criteria are not met.

Product data: No data available.

Substance data: No data available.

# Serious eye damage/irritation

Assessment: Causes serious eye damage

Product data: No data available.

# Substance data:

| Name          | Result                     |
|---------------|----------------------------|
| Tartaric Acid | Causes serious eye damage. |

# **Respiratory or skin sensitization**

Assessment: Based on available data, the classification criteria are not met.

Product data: No data available.

Substance data: No data available.

# Carcinogenicity

Assessment: Based on available data, the classification criteria are not met.
