according to 29CFR1910/1200 and GHS Rev. 3

Initial preparation date: : 12.29.2014

## Manganese Nitrate 0.1M

## SECTION 1: Identification of the substance/mixture and of the supplier

Product name:

Manganese Nitrate 0.1M

## Manufacturer/Supplier Article number: MN4922SS

Recommended uses of the product and restrictions on use: Laboratory chemicals

## Manufacturer Details:

AquaPhoenix Scientific, Inc. 860 Gitts Run Road Hanover, PA 17331 1-717-632-1291

## **Emergency telephone number:**

## ChemTel: (24-hour)

+1(800)255-3924 +1(813)248-0585 (International)

## **SECTION 2: Hazards identification**

## Classification of the substance or mixture:

**Corrosive** Skin corrosion, category 1B

Skin corrosion/irritation - Skin Corr. 1B. Oxidizing Liquid 3.

## Signal word: Danger

## Hazard statements:

May intensify fire; oxidizer. Causes severe skin burns and eye damage.

## **Precautionary statements:**

If medical advice is needed have product container or label at hand.

Keep out of reach of children.

Read label before use.

Keep away from heat/sparks/open flames/hot surfaces. No smoking.

Wear protective gloves/protective clothing/eye protection/face protection.

Take any precaution to avoid mixing with combustibles.

Keep/Store away from clothing/combustible materials.

Wash skin thoroughly after handling.

Rinse mouth.

IF ON SKIN: Wash with soap and water.

IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing.

Immediately call a POISON CENTER or doctor/physician.

IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower. Wash contaminated clothing before reuse.

according to 29CFR1910/1200 and GHS Rev. 3

## Initial preparation date: : 12.29.2014

#### Manganese Nitrate 0.1M

IF SWALLOWED: Rinse mouth. Do NOT induce vomiting. Specific treatment (see supplemental first aid instructions on this label). In case of fire, use agents recommended in section 5 for extinction. Store locked up. Dispose of contents and container as instructed in Section 13.

## Other Non-GHS Classification: None

## **SECTION 3: Composition/information on ingredients**

#### Ingredients:

Ingredients:			
CAS 7697-37-2	Nitric Acid	7.55 %	
CAS 7732-18-5	Deionized Water	90.661 %	
CAS 10377-66-9	Manganese Nitrate, ACS	1.789 %	
Percentages are by weight			

## **SECTION 4: First aid measures**

## **Description of first aid measures**

## After inhalation:

Move exposed individual to fresh air. Loosen clothing as necessary and position individual in a comfortable position. Seek medical advice if discomfort or irritation persists.

#### After skin contact:

Wash affected area with soap and water. Rinse or flush skin/hair gently with water for at least 30 minutes. Seek immediate medical attention.

## After eye contact:

Protect unexposed eye. Remove contact lens(es) if able to do so during rinsing. Rinse or flush eye gently with water for at least 30 minutes, lifting upper and lower lids. Seek immediate medical attention (ophthalmologist).

## After swallowing:

Rinse mouth thoroughly. Do not induce vomiting. Have exposed individual drink sips of water. Seek medical attention if irritation, discomfort or vomiting persists.

## Most important symptoms and effects, both acute and delayed:

May cause severe burns, blindness and/or permanent damage. May cause burns, deep penetrating ulcerations of the skin, delayed tissue destruction, redness, pain. May cause gastrointestinal irritation with nausea, vomiting and diarrhea. Headache. Shortness of breath. Irritation/burns, all routes of exposure. Chronic inhalation or ingestion may result in manganism characterized by neurological symptoms such as headache, apathy, weakness of legs, followed by psychosis and neurological symptoms. May impair fertility.

## Indication of any immediate medical attention and special treatment needed:

If seeking medical attention, provide SDS document to physician.

#### **SECTION 5: Firefighting measures**

#### **Extinguishing media**

## Suitable extinguishing agents:

If in laboratory setting, follow laboratory fire suppression procedures. Use appropriate fire suppression agents

according to 29CFR1910/1200 and GHS Rev. 3

## Initial preparation date: : 12.29.2014

#### Manganese Nitrate 0.1M

for adjacent combustible materials or sources of ignition.

## Unsuitable extinguishing agents: None

## Special hazards arising from the substance or mixture:

Combustion products may include carbon oxides or other toxic vapors. Nitrogen oxides (NOx). Contact with other material may cause a fire.

## Advice for firefighters:

## **Protective equipment:**

Use protective clothing. Use NIOSH-approved breathing equipment.

## Additional information (precautions):

Move product containers away from fire or keep cool with water spray as a protective measure, where feasible.

## **SECTION 6: Accidental release measures**

#### Personal precautions, protective equipment and emergency procedures:

Wear protective equipment. Avoid contact with skin, eyes and clothing. Use respiratory protective device against the effects of fumes/dust/aerosol. Keep unprotected persons away. Ensure adequate ventilation. Keep away from ignition sources. Protect from heat. Stop the spill, if possible. Contain spilled material by diking or using inert absorbent. Transfer to a disposal or recovery container.

## **Environmental precautions:**

Prevent from reaching drains, sewer or waterway. Collect contaminated soil for characterization per Section 13.

## Methods and material for containment and cleaning up:

If in a laboratory setting, follow Chemical Hygiene Plan procedures. Collect liquids using vacuum or by use of absorbents. Place into properly labeled containers for recovery or disposal. If necessary, use trained response staff/contractor. Cover spill with suitable absorbing agent. Mix and add water to form slurry.

#### Reference to other sections: None

## **SECTION 7: Handling and storage**

## Precautions for safe handling:

Prevent formation of aerosols. Follow good hygiene procedures when handling chemical materials. Do not eat, drink, smoke, or use personal products when handling chemical substances. If in a laboratory setting, follow Chemical Hygiene Plan. Use only in well ventilated areas. Avoid splashes or spray in enclosed areas. No smoking.Keep away from heat and sources of ignition. Wash hands after handling. Remove contaminated clothing and wash before reuse. Avoid contact with incompatibles, clothing, skin and eyes.

## Conditions for safe storage, including any incompatibilities:

Keep away from heat, sparks, and flame. Do not store near combustible materials. Store in a dry, wellventilated area away from incompatible substances. Store in a tightly closed container. Store in a dry, wellventilated area away from incompatible substances. Store in a warm area; product will crystallize at room temperature. Store away from foodstuffs. Store with like hazards. Storage class (TRGS 510): Oxidizing hazardous materials.

## **SECTION 8: Exposure controls/personal protection**

according to 29CFR1910/1200 and GHS Rev. 3

Initial preparation date: : 12.29.2014

Manganese Nitrate 0.1M			
Control parameters:	7697-37-2, Nitric Acid, NIOSH 4 ppm STEL; 10 mg/m <sup>3</sup> STEL. 7697-37-2, Nitric Acid , NIOSH 2 ppm TWA; 5 mg/m <sup>3</sup> TWA. 7697-37-2 , Nitric Acid , ACGIH 4 ppm STEL. 7697-37-2, Nitric Acid , ACGIH 2 ppm TWA. 10377-66-9, Manganese Nitrate, ACGIH TLV TWA: 0.2 mg/m3. 10377-66-9, Manganese Nitrate, OSHA PEL TWA: 5 mg/m <sup>3</sup> .		
Appropriate engineering controls:	Emergency eye wash fountains and safety showers should be available in the immediate vicinity of use/handling. Provide exhaust ventilation or other engineering controls to keep the airborne concentrations of vapor or mists below the applicable workplace exposure limits (Occupational Exposure Limits-OELs) indicated above.		
Respiratory protection:	Not required under normal conditions of use. Use suitable respiratory protective device when high concentrations are present. Use suitable respiratory protective device when aerosol or mist is formed. For spills, respiratory protection may be advisable.		
Protection of skin:	The glove material has to be impermeable and resistant to the product/ the substance/ the preparation being used/handled. Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation.		
Eye protection:	Safety glasses with side shields or goggles.		
General hygienic measures:	The usual precautionary measures are to be adhered to when handling chemicals. Keep away from food, beverages and feed sources. Immediately remove all soiled and contaminated clothing. Wash hands before breaks and at the end of work. Do not inhale gases/fumes/dust/mist/vapor/aerosols. Avoid contact with the eyes and skin.		

## **SECTION 9: Physical and chemical properties**

Appearance (physical state, color):	Clear, reddish-orange liquid	Explosion limit lower: Explosion limit upper:	Not determined Not determined
Odor:	Odorless	Vapor pressure at 20°C:	Not determined
Odor threshold:	Not determined	Vapor density:	Not determined
pH-value:	Not determined	Relative density:	1.575 at 15 °C
Melting/Freezing point:	10 °C	Solubilities:	Soluble.
Boiling point/Boiling range:	Not determined	Partition coefficient (n- octanol/water):	Not determined
Flash point (closed cup):	Not determined	Auto/Self-ignition temperature:	Not determined
Evaporation rate:	Not determined	Decomposition temperature:	Not determined
Flammability (solid, gaseous):	Not determined	Viscosity:	a. Kinematic: Not determined b. Dynamic: Not determined
Density at 20°C:	Not determined		
% Volatility	45% (water)		

## **SECTION 10: Stability and reactivity**

## **Reactivity:**

Oxidizer.

**Chemical stability:** 

according to 29CFR1910/1200 and GHS Rev. 3

## Initial preparation date: : 12.29.2014

#### Manganese Nitrate 0.1M

No decomposition if used and stored according to specifications.

#### **Possible hazardous reactions:**

Oxidizer. None under normal processing. Contact with combustible materials may cause fire.

## **Conditions to avoid:**

excess heat. combustible materials. Incompatible Materials.

## Incompatible materials:

Combustible materials. Water-reactive materials, oxidizable materials, active metals, strong reducing agents or flammable materials.

## Hazardous decomposition products:

Nitrogen oxides (NOx).

#### **SECTION 11: Toxicological information**

## Acute Toxicity: No additional information. Chronic Toxicity: No additional information. Skin corrosion/irritation:

Rabbit: Corrosive. Classified as causing severe skin burns and eye damage. Section 2.

## Serious eye damage/irritation:

Rabbit: Corrosive to eyes.

Classified as causing serious eye damage. Section 2.

## **Respiratory or skin sensitization**: No additional information. **Carcinogenicity**: No additional information.

carcinogenicity. No additional information.

# Germ cell mutagenicity: No additional information.

#### **Reproductive Toxicity**:

Experiments have shown reproductive toxicity effects on laboratory animals. Decreases fertility in men.

## STOT-single and repeated exposure: No additional information.

Additional toxicological information:

No additional information.

## **SECTION 12: Ecological information**

# **Ecotoxicity:** No additional information. **Persistence and degradability**:

Readily degradable in the environment.

## Bioaccumulative potential: No additional information.

Mobility in soil:

Aqueous solution has high mobility in soil.

Other adverse effects: No additional information.

## **SECTION 13: Disposal considerations**

## Waste disposal recommendations:

according to 29CFR1910/1200 and GHS Rev. 3

## Initial preparation date: : 12.29.2014

## Manganese Nitrate 0.1M

Product/containers must not be disposed together with household garbage. Do not allow product to reach sewage system or open water. It is the responsibility of the waste generator to properly characterize all waste materials according to applicable regulatory entities (US 40CFR262.11). Consult federal state/ provincial and local regulations regarding the proper disposal of waste material that may incorporate some amount of this product.

## **SECTION 14: Transport information**

## **US DOT**

**UN Number:** ADR, ADN, DOT, IMDG, IATA

3098

## Limited Quantity Exception:

RQ (if applicable): None Proper shipping Name: Oxidizing liquid, Corrosive, N.O.S. (Manganese nitrate, Nitric acid). Hazard Class: 5, 8 Packing Group: III. Marine Pollutant (if applicable): No additional information. Comments: None None

Non Bulk: RQ (if applicable): None Proper shipping Name: Oxidizing liquid, Corrosive, N.O.S. (Manganese nitrate, Nitric acid). Hazard Class: 5, 8 Packing Group: III.

Marine Pollutant (if applicable): No additional information. Comments: None

# OXIDIZER 5.1 B

## **SECTION 15: Regulatory information**

## United States (USA)

## SARA Section 311/312 (Specific toxic chemical listings):

Acute, Chronic, Reactive

SARA Section 313 (Specific toxic chemical listings):

7697-37-2 Nitric Acid.

## RCRA (hazardous waste code):

None of the ingredients are listed.

## TSCA (Toxic Substances Control Act) :

All ingredients are listed.

## CERCLA (Comprehensive Environmental Response, Compensation, and Liability Act):

7697-37-2 Nitric acid 1000 lbs.

## Proposition 65 (California):

## Chemicals known to cause cancer:

None of the ingredients are listed.

## Chemicals known to cause reproductive toxicity for females:

according to 29CFR1910/1200 and GHS Rev. 3

Initial preparation date: : 12.29.2014

Manganese Nitrate 0.1M

None of the ingredients are listed.

## Chemicals known to cause reproductive toxicity for males:

None of the ingredients are listed.

## Chemicals known to cause developmental toxicity:

None of the ingredients are listed.

#### Canada

## Canadian Domestic Substances List (DSL) :

All ingredients are listed.

#### **SECTION 16: Other information**

This product has been classified in accordance with hazard criteria of the Controlled Products Regulations and the SDS contains all the information required by the Controlled Products Regulations. Note. The responsibility to provide a safe workplace remains with the user. The user should consider the health hazards and safety information contained herein as a guide and should take those precautions required in an individual operation to instruct employees and develop work practice procedures for a safe work environment. The information contained herein is, to the best of our knowledge and belief, accurate. However, since the conditions of handling and use are beyond our control, we make no guarantee of results, and assume no liability for damages incurred by the use of this material. It is the responsibility of the user to comply with all applicable laws and regulations applicable to this material.
