# **5 Fire-fighting measures**

· Extinguishing media

• Suitable extinguishing agents: Use fire fighting measures that suit the environment.

• For safety reasons unsuitable extinguishing agents: No relevant information available.

### acc. to OSHA HCS (29CFR 1910.1200) and WHMIS 2015 Regulations

Printing date: January 10, 2019

Revision: December 18, 2018

Trade name: Dispersant Reagent A

(Cont'd. of page 2)

· Special hazards arising from the substance or mixture Formation of toxic gases is possible during heating or in case of fire.

Advice for firefighters

· Protective equipment: Wear self-contained respiratory protective device. Wear fully protective suit.

# 6 Accidental release measures

# Personal precautions, protective equipment and emergency procedures Ensure adequate ventilation. Use personal protective equipment as required.

For large spills, use respiratory protective device against the effects of fumes/dust/aerosol.

Environmental precautions

Do not allow undiluted product or large quantities of it to reach ground water, water course or sewage system.

# Methods and material for containment and cleaning up

Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Send for recovery or disposal in suitable receptacles.

 Reference to other sections See Section 7 for information on safe handling. See Section 8 for information on personal protection equipment. See Section 13 for disposal information.

# 7 Handling and storage

# · Handling

· Precautions for safe handling:

Use only in well ventilated areas.

Prevent formation of aerosols.

Avoid splashes or spray in enclosed areas.

· Information about protection against explosions and fires: No special measures required.

# · Conditions for safe storage, including any incompatibilities

- Requirements to be met by storerooms and receptacles: No special requirements.
- Information about storage in one common storage facility: Store away from foodstuffs.

Store away from oxidizing agents.

• Further information about storage conditions: Keep containers tightly sealed.

· Specific end use(s) No relevant information available.

# 8 Exposure controls/personal protection

# · Control parameters

· Components with limit values that require monitoring at the workplace:

The product does not contain any relevant guantities of materials with critical values that have to be monitored at the workplace.

(Cont'd. on page 4)

(Cont'd. on page 5)

# Safety Data Sheet

## acc. to OSHA HCS (29CFR 1910.1200) and WHMIS 2015 Regulations

Printing date: January 10, 2019

· pH-value:

· Flash point:

· Melting point/Melting range:

· Boiling point/Boiling range:

Revision: December 18, 2018

Trade name: Dispersant Reagent A (Cont'd. of page 3) Exposure controls · General protective and hygienic measures: The usual precautionary measures for handling chemicals should be followed. Keep away from foodstuffs, beverages and feed. Wash hands before breaks and at the end of work. Avoid contact with the eyes and skin. · Engineering controls: Provide adequate ventilation. · Breathing equipment: Not required under normal conditions of use. Use suitable respiratory protective device when high concentrations are present. · Protection of hands: Protective gloves The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. Material of gloves Nitrile rubber, NBR Neoprene gloves Butyl rubber, BR Natural rubber, NR Sensibilization by the components in the glove materials is possible. Penetration time of glove material The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed. • Eye protection: Safety glasses Follow relevant national guidelines concerning the use of protective eyewear. · Body protection: Protective work clothing Limitation and supervision of exposure into the environment No relevant information available. 9 Physical and chemical properties Information on basic physical and chemical properties · Appearance: Form: Liquid Color: Clear, colorless · Odor: Odorless · Odor threshold: Not determined.

Not determined.

Not determined.

105-110 °C (221-230 °F)

The product is not flammable.

Printing date: January 10, 2019

# 10 Stability and reactivity

<ul> <li>Reactivity: No relevant information available.</li> <li>Chemical stability: Stable under normal temperatures and pressures.</li> </ul>	
• Thermal decomposition / conditions to be avoided:	
No decomposition if used and stored according to specifications.	
Keep away from heat/sparks/open flames/hot surfaces No smoking.	
Possibility of hazardous reactions	
Toxic fumes may be released if heated above the decomposition point.	
Reacts with strong oxidizing agents.	
<ul> <li>Conditions to avoid Avoid heat or contamination.</li> </ul>	
<ul> <li>Incompatible materials</li> </ul>	
Reducing agents, combustible materials, moisture, contact with metals.	
Strong acids	
Alkalis	
Metals.	
<ul> <li>Hazardous decomposition products</li> </ul>	
Under fire conditions only:	
Carbon monoxide and carbon dioxide	
Nitrogen oxides (NOx)
