Revision: June 25, 2018

	(Cont'd. of page
P260	Do not breathe mist/vapors/spray.
P264	Wash thoroughly after handling.
P271	Use only outdoors or in a well-ventilated area.
P280	Wear protective gloves/protective clothing/eye protection.
P301+P330+P33	31 If swallowed: Rinse mouth. Do NOT induce vomiting.
	53 If on skin (or hair): Take off immediately all contaminated clothing. Rinse skin w water/shower.
P304+P340	IF INHALED: Remove person to fresh air and keep comfortable for breathing.
P305+P351+P33	38 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses present and easy to do. Continue rinsing.
P310	Immediately call a poison center/doctor.
P363	Wash contaminated clothing before reuse.
P390	Absorb spillage to prevent material damage.
P403+P233	Store in a well-ventilated place. Keep container tightly closed.
P405	Store locked up.
P406	Store in corrosive resistant container with a resistant inner liner.
P501	Dispose of contents/container in accordance with local/regional/national/internation regulations.

3 Composition/information on ingredients

· Chemical characterization: Mixtures

· Componen	ts:			
7732-18-5	Water	>80%		
1336-21-6	ammonia Met. Corr.1, H290; Skin Corr. 1B, H314; Eye Dam. 1, H318 STOT SE 3, H335	5-10%		
12125-02-9	ammonium chloride ① Acute Tox. 4, H302; Eye Irrit. 2A, H319	1-5%		
14402-88-1	Disodium [[N,N'-ethylenebis[N-(carboxymethyl)glycinato]](4-)-N,N',O,O',ON,ON'] magnesate(2-) Skin Irrit. 2, H315 Eye Irrit. 2B, H320	<1%		
12135-76-1	ammonium sulphide ♦ Skin Corr. 1B, H314; Eye Dam. 1, H318	<1%		
· Additional	Additional information:			

For the listed ingredient(s), the identity and/or exact percentage(s) are being withheld as a trade secret. For the wording of the listed Hazard Statements, refer to section 16.

4 First-aid measures

· Description of first aid measures

· After inhalation:

Supply fresh air. Provide oxygen treatment if affected person has difficulty breathing. Seek medical help for symptoms or if unconscious.

(Cont'd. on page 3)

according to OSHA HCS (29CFR 1910.1200) and WHMIS 2015 Regulations

Revision: June 25, 2018

	(Cont'd. of pa
After skin contact:	(0011101010
Immediately remove any clothing soiled by the product.	
Immediately rinse with water.	
Seek immediate help for blistering or open wounds.	
If skin irritation continues, consult a doctor.	
After eye contact:	
Protect unharmed eye.	
Remove contact lenses if worn.	
Rinse opened eye for several minutes under running water. Then consult a doctor.	
After swallowing:	
Rinse out mouth and then drink plenty of water.	
Do not induce vomiting; immediately call for medical help.	
Most important symptoms and effects, both acute and delayed:	
Dizziness	
Coughing	
Strong irritant with the danger of severe eye injury.	
Caustic effect on skin and mucous membranes.	
May cause respiratory irritation.	
Gastric or intestinal disorders when ingested.	
Nausea in case of ingestion.	
Breathing difficulty	
Danger:	
Danger of impaired breathing.	
Danger of gastric perforation.	
May cause drowsiness or dizziness.	
Indication of any immediate medical attention and special treatment needed:	
Later observation for pneumonia and pulmonary edema.	
Medical supervision for at least 48 hours.	
If necessary oxygen respiration treatment.	
If medical advice is needed, have product container or label at hand.	

5 Fire-fighting measures

- [·] Extinguishing media
- Suitable extinguishing agents:
- The product is not flammable.

Use fire fighting measures that suit the environment.

- For safety reasons unsuitable extinguishing agents: No relevant information available.
- Special hazards arising from the substance or mixture

During heating or in case of fire poisonous gases are produced.

- [•] Advice for firefighters
- · Protective equipment:

Wear self-contained respiratory protective device.

Wear fully protective suit.

6 Accidental release measures

[•] Personal precautions, protective equipment and emergency procedures

Wear protective equipment. Keep unprotected persons away.

(Cont'd. on page 4)

according to OSHA HCS (29CFR 1910.1200) and WHMIS 2015 Regulations

Revision: June 25, 2018

Trade name: Hardness Buffer Solution

(Cont'd. of page 3)

For large spills, use respiratory protective device against the effects of fumes/dust/aerosol. Ensure adequate ventilation.

• Environmental precautions

Do not allow undiluted product or large quantities of it to reach ground water, water course or sewage system.

Methods and material for containment and cleaning up

Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Send for recovery or disposal in suitable receptacles.

Reference to other sections

See Section 7 for information on safe handling. See Section 8 for information on personal protection equipment.

See Section 13 for disposal information.

7 Handling and storage

[·] Handling

• Precautions for safe handling:

Prevent formation of aerosols.

Avoid splashes or spray in enclosed areas.

Use only in well ventilated areas.

· Information about protection against explosions and fires: No special measures required.

[•] Conditions for safe storage, including any incompatibilities

Requirements to be met by storerooms and receptacles:

Store only in the original receptacle.

Unsuitable material for receptacle: aluminium.

- Information about storage in one common storage facility:
- Store away from foodstuffs.

Do not store together with acids.

Store away from oxidizing agents.

Store away from metals.

Further information about storage conditions: Keep containers tightly sealed.

• Specific end use(s) No relevant information available.

8 Exposure controls/personal protection

· Control parameters

Components with limit values that require monitoring at the workplace:			
12125-02-9 ammonium chloride			
REL (USA)	Short-term value: 20 mg/m ³ Long-term value: 10 mg/m ³		
TLV (USA)	Short-term value: 20 mg/m ³ Long-term value: 10 mg/m ³		
EL (Canada)	Short-term value: 20 mg/m ³ Long-term value: 10 mg/m ³ fume		
EV (Canada)	Short-term value: 20 mg/m ³

Kinematic:	Not determined.	
Other information	No relevant information available.	

10 Stability and reactivity

· Reactivity: No relevant information available.

· Chemical stability: Stable under normal temperatures and pressures.

Thermal decomposition / conditions to be avoided:

No decomposition if used and stored according to specifications.

[•] Possibility of hazardous reactions

Corrodes aluminium.

Strong exothermic reaction with acids.

Reacts with strong oxidizing agents.

Toxic fumes may be released if heated above the decomposition point.

· Conditions to avoid No relevant information available.

· Incompatible materials No relevant information available.

[·] Hazardous decomposition products

Under fire conditions only:

Chlorine compounds

Nitrogen oxides (NOx)

[·] Additional ecological information

· General notes:

Do not allow undiluted product or large quantities of it to reach ground water, water course or sewage system.

Rinse off of bigger amounts into drains or the aquatic environment may lead to increased pH-values. A high pH-value harms aquatic organisms. In the dilution of the use-level the pH-value is considerably reduced, so that after the use of the product the aqueous waste, emptied into drains, is only low water-dangerous.

Other adverse effects No relevant information available.

(Cont'd. on page 8)

according to OSHA HCS (29CFR 1910.1200) and WHMIS 2015 Regulations

Revision: June 25, 2018

13 Disposal considerations

[·] Waste treatment methods

· Recommendation:

The user of this material has the responsibility to dispose of unused material, residues and containers in compliance with all relevant local, state and federal laws and regulations regarding treatment, storage and disposal for hazardous and nonhazardous wastes.

[·] Uncleaned packagings

• Recommendation: Disposal must be made according to official regulations.
