

# Safety Data Sheet

## HP6912SS

Version number: 1.4

Date of compilation: 2026-01-06

### SECTION 1: Identification

#### 1.1 Product identifier

Trade name **Carboxypeptidase Hydrolyzed**  
SDS Identifier **HP6912SS**

#### 1.2 Relevant identified uses of the substance or mixture and uses advised against

Relevant identified uses laboratory and analytical use

#### 1.3 Details of the supplier of the safety data sheet

AquaPhoenix Scientific  
860 Gitts Run Road  
Hanover PA 17331  
United States

Telephone: (866) 632-1291  
e-mail: [info@aquaphoenixsci.com](mailto:info@aquaphoenixsci.com)  
Website: <https://www.aquaphoenixsci.com/>

#### 1.4 Emergency telephone number

Emergency information service ChemTel Inc.: 1-800-255-3924, +01-813-248-0585

### SECTION 2: Hazard(s) identification

#### 2.1 Classification of the substance or mixture

Classification acc. to OSHA "Hazard Communication Standard" (29 CFR 1910.1200, Rev. 2024)  
This mixture does not meet the criteria for classification.

#### 2.2 Label elements

Labelling acc. to OSHA "Hazard Communication Standard" (29 CFR 1910.1200, Rev. 2024)  
not required

#### 2.3 Other hazards

Results of PBT and vPvB assessment  
Does not contain a PBT-/vPvB-substance at a concentration of  $\geq 0.1\%$ .  
Endocrine disrupting properties  
Does not contain an endocrine disruptor (ED) in a concentration of  $\geq 0.1\%$ .

### SECTION 3: Composition/information on ingredients

#### 3.1 Substances

Not relevant (mixture)

#### 3.2 Mixtures

Description of the mixture

| Name of substance    | Identifier          | Wt%   | Classification acc. to GHS | Pictograms |
|----------------------|---------------------|-------|----------------------------|------------|
| Water                | CAS No<br>7732-18-5 | 99.32 |                            |            |
| Bovine Serum Albumin | CAS No              | 0.33  |                            |            |

### Remarks

For full text of abbreviations: see SECTION 16

## SECTION 4: First-aid measures

### 4.1 Description of first-aid measures

#### General notes

Do not leave affected person unattended. Remove victim out of the danger area. Keep affected person warm, still and covered. Take off immediately all contaminated clothing. In all cases of doubt, or when symptoms persist, seek medical advice. In case of unconsciousness place person in the recovery position. Never give anything by mouth.

#### Following inhalation

If breathing is irregular or stopped, immediately seek medical assistance and start first aid actions. Provide fresh air.

#### Following skin contact

Wash with plenty of soap and water.

#### Following eye contact

Remove contact lenses, if present and easy to do. Continue rinsing. Irrigate copiously with clean, fresh water for at least 10 minutes, holding the eyelids apart.

#### Following ingestion

Rinse mouth with water (only if the person is conscious). Do NOT induce vomiting.

### 4.2 Most important symptoms and effects, both acute and delayed

Symptoms and effects are not known to date.

### 4.3 Indication of any immediate medical attention and special treatment needed

none

## SECTION 5: Fire-fighting measures

### 5.1 Extinguishing media

#### Suitable extinguishing media

Water spray, BC-powder, Carbon dioxide (CO2)

#### Unsuitable extinguishing media

Water jet

### 5.2 Special hazards arising from the substance or mixture

#### Hazardous combustion products

Nitrogen oxides (NOx), Carbon monoxide (CO), Carbon dioxide (CO2)

### 5.3 Advice for firefighters

In case of fire and/or explosion do not breathe fumes. Coordinate firefighting measures to the fire surroundings. Do not allow firefighting water to enter drains or water courses. Collect contaminated firefighting water separately. Fight fire

# Safety Data Sheet

## HP6912SS

Version number: 1.4

Date of compilation: 2026-01-06

with normal precautions from a reasonable distance.

### SECTION 6: Accidental release measures

#### 6.1 Personal precautions, protective equipment and emergency procedures

For non-emergency personnel

Remove persons to safety.

For emergency responders

Wear breathing apparatus if exposed to vapors/dust/aerosols/gases.

#### 6.2 Environmental precautions

Keep away from drains, surface and ground water. Retain contaminated washing water and dispose of it.

#### 6.3 Methods and material for containment and cleaning up

Advice on how to contain a spill

Covering of drains

Advice on how to clean up a spill

Wipe up with absorbent material (e.g. cloth, fleece). Collect spillage: sawdust, kieselgur (diatomite), sand, universal binder

Appropriate containment techniques

Use of adsorbent materials.

Other information relating to spills and releases

Place in appropriate containers for disposal. Ventilate affected area.

#### 6.4 Reference to other sections

Hazardous combustion products: see section 5. Personal protective equipment: see section 8. Incompatible materials: see section 10. Disposal considerations: see section 13.

### SECTION 7: Handling and storage

#### 7.1 Precautions for safe handling

Recommendations

Wear impact- and splash-resistant eyewear.

- Measures to prevent fire as well as aerosol and dust generation

Use local and general ventilation. Use only in well-ventilated areas.

Advice on general occupational hygiene

Wash hands after use. Do not eat, drink and smoke in work areas. Remove contaminated clothing and protective equipment before entering eating areas. Never keep food or drink in the vicinity of chemicals. Never place chemicals in containers that are normally used for food or drink. Keep away from food, drink and animal feedingstuffs.

#### 7.2 Conditions for safe storage, including any incompatibilities

Control of the effects

Protect against external exposure, such as

heat, high temperatures, light, UV-radiation/sunlight

### SECTION 8: Exposure controls/personal protection

#### 8.1 Control parameters

| US      | sodium azide  | 26628-22-8 | TLV®       |           |             |            |              | 0.11            |                   | vap, HN3 | ACGIH® 2024  |

#### Notation

|           |                                                                                                                                                                          |
|-----------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Ceiling-C | ceiling value is a limit value above which exposure should not occur                                                                                                     |
| H         | absorbed through the skin                                                                                                                                                |
| HN3       | calculated as HN3 (hydrazoic acid)                                                                                                                                       |
| STEL      | short-term exposure limit: a limit value above which exposure should not occur and which is related to a 15-minute period (unless otherwise specified)                   |
| TWA       | time-weighted average (long-term exposure limit): measured or calculated in relation to a reference period of 8 hours time-weighted average (unless otherwise specified) |
| vap       | as vapors                                                                                                                                                                |

### Relevant DNELs of components

| Name of substance | CAS No     | Endpoint | Threshold level    | Protection goal, route of exposure | Used in           | Exposure time              |
|-------------------|------------|----------|--------------------|------------------------------------|-------------------|----------------------------|
| Arginine          | 74-79-3    | DNEL     | 552 mg/m³          | human, inhalatory                  | worker (industry) | chronic - systemic effects |
| Arginine          | 74-79-3    | DNEL     | 782.8 mg/kg bw/day | human, dermal                      | worker (industry) | chronic - systemic effects |
| sodium azide      | 26628-22-8 | DNEL     | 0.493 mg/m³        | human, inhalatory                  | worker (industry) | chronic - systemic effects |
| sodium azide      | 26628-22-8 | DNEL     | 140 µg/kg          | human, dermal                      | worker (industry) | chronic - systemic effects |

### Relevant PNECs of components

| Name of substance | CAS No  | Endpoint | Threshold level | Organism          | Environmental compartment    | Exposure time                |
|-------------------|---------|----------|-----------------|-------------------|------------------------------|------------------------------|
| Arginine          | 74-79-3 | PNEC     | 1.8 mg/l        | aquatic organisms | freshwater                   | short-term (single instance) |
| Arginine          | 74-79-3 | PNEC     | 0.18 mg/l       | aquatic organisms | marine water                 | short-term (single instance) |
| Arginine          | 74-79-3 | PNEC     | 10 g/l          | aquatic organisms | sewage treatment plant (STP) | short-term (single instance) |
| Arginine          | 74-79-3 | PNEC     | 3.663 mg/kg     | aquatic organisms | freshwater sediment          | short-term (single instance) |
| Arginine          | 74-79-3 | PNEC     | 0.366 mg/kg     | aquatic organisms | marine sediment              | short-term (single instance) |

## 8.2 Exposure controls

Appropriate engineering controls

General ventilation.

Individual protection measures (personal protective equipment)

Eye/face protection

Wear eye/face protection.

Skin protection

- Hand protection

Wear suitable gloves. Chemical protection gloves are suitable, which are tested according to EN 374. Check leak-tightness/impermeability prior to use. In the case of wanting to use the gloves again, clean them before taking off and air them well. For special purposes, it is recommended to check the resistance to chemicals of the protective gloves mentioned above together with the supplier of these gloves.

- Other protection measures

Wash hands thoroughly after handling.

Respiratory protection

In case of inadequate ventilation wear respiratory protection.

Environmental exposure controls

Use appropriate container to avoid environmental contamination. Keep away from drains, surface and ground water.

## SECTION 9: Physical and chemical properties

### 9.1 Information on basic physical and chemical properties

**Product description:** See website or catalog for details.

|                                                          |                   |
|----------------------------------------------------------|-------------------|
| Physical state                                           | liquid            |
| Color                                                    | colorless - clear |
| Odor                                                     | odorless          |
| Melting point/freezing point                             | 0 °C at 1 atm     |
| Boiling point or initial boiling point and boiling range | 100 °C at 1 atm   |

## SECTION 10: Stability and reactivity

### 10.1 Reactivity

Concerning incompatibility: see below "Conditions to avoid" and "Incompatible materials".

### 10.2 Chemical stability

The material is stable under normal ambient and anticipated storage and handling conditions of temperature and pressure.

### 10.3 Possibility of hazardous reactions

No known hazardous reactions.

### 10.4 Conditions to avoid

There are no specific conditions known which have to be avoided.

### 10.5 Incompatible materials

Oxidizers

### 10.6 Hazardous decomposition products

Reasonably anticipated hazardous decomposition products produced as a result of use, storage, spill and heating are not known. Hazardous combustion products: see section 5.

# Safety Data Sheet

## HP6912SS

Version number: 1.4

Date of compilation: 2026-01-06

### SECTION 11: Toxicological information

#### 11.1 Information on toxicological effects

Test data are not available for the complete mixture.

##### Classification procedure

The method for classification of the mixture is based on ingredients of the mixture (additivity formula).

##### Classification acc. to OSHA "Hazard Communication Standard" (29 CFR 1910.1200, Rev. 2024)

This mixture does not meet the criteria for classification.

##### Acute toxicity

Shall not be classified as acutely toxic.

##### Acute toxicity estimate (ATE) of components

| Name of substance | CAS No     | Exposure route        | ATE            |
|-------------------|------------|-----------------------|----------------|
| sodium azide      | 26628-22-8 | oral                  | 5 mg/kg        |
| sodium azide      | 26628-22-8 | dermal                | 5 mg/kg        |
| sodium azide      | 26628-22-8 | inhalation: dust/mist | >0.054 mg/l/4h |

##### Skin corrosion/irritation

Shall not be classified as corrosive/irritant to skin.

##### Serious eye damage/eye irritation

Shall not be classified as seriously damaging to the eye or eye irritant.

##### Respiratory or skin sensitization

Shall not be classified as a respiratory or skin sensitizer.

##### Germ cell mutagenicity

Shall not be classified as germ cell mutagenic.

##### Carcinogenicity

Shall not be classified as carcinogenic.

##### Reproductive toxicity

Shall not be classified as a reproductive toxicant.

##### Specific target organ toxicity - single exposure

Shall not be classified as a specific target organ toxicant (single exposure).

##### Specific target organ toxicity - repeated exposure

Shall not be classified as a specific target organ toxicant (repeated exposure).

##### Aspiration hazard

Shall not be classified as presenting an aspiration hazard.

#### 11.2 Information on other hazards

There is no additional information.

### SECTION 12: Ecological information

#### 12.1 Toxicity

Shall not be classified as hazardous to the aquatic environment.

#### 12.2 Persistence and degradability

Data are not available.

# Safety Data Sheet

## HP6912SS

Version number: 1.4

Date of compilation: 2026-01-06

### 12.3 Bioaccumulative potential

Data are not available.

### 12.4 Mobility in soil

Data are not available.

### 12.5 Results of PBT and vPvB assessment

Does not contain a PBT-/vPvB-substance at a concentration of  $\geq 0.1\%$ .

### 12.6 Endocrine disrupting properties

Does not contain an endocrine disruptor (ED) in a concentration of  $\geq 0.1\%$ .

### 12.7 Other adverse effects

Data are not available.

## SECTION 13: Disposal considerations

### 13.1 Waste treatment methods

Please consider the relevant national or regional provisions.

## SECTION 14: Transport information

| 14.5 | Environmental hazards                                   | non-environmentally hazardous acc. to the dangerous goods regulations                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 14.6 | Other relevant information                              | Shipping container markings and labels, received from AquaPhoenix, may vary from the above information. Products that are regulated for transport will be packaged by AquaPhoenix as Dangerous Goods in Excepted Quantities according to IATA, US DOT, and IMDG regulations. AquaPhoenix may also elect to ship certain products as UN 3316 Chemical Kit, Hazard Class 9, Packing Group II or III. In case of reshipment, it is the responsibility of the shipper to determine appropriate labels and markings in accordance with applicable transportation regulations. |
| 14.7 | Maritime transport in bulk according to IMO instruments | The cargo is not intended to be carried in bulk.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

### Information for each of the UN Model Regulations

#### Transport of dangerous goods by road or rail (49 CFR US DOT) - Additional information

Not subject to transport regulations.

#### International Maritime Dangerous Goods Code (IMDG) - Additional information

Not subject to IMDG.

#### International Civil Aviation Organization (ICAO-IATA/DGR) - Additional information

Not subject to ICAO-IATA.

## SECTION 15: Regulatory information

- ### 15.1 Safety, health and environmental regulations specific for the product in question
- #### National regulations (United States)

# Safety Data Sheet

## HP6912SS

Version number: 1.4

Date of compilation: 2026-01-06

| Abbr.   | Descriptions of used abbreviations                                                                  |
|---------|-----------------------------------------------------------------------------------------------------|
| PBT     | Persistent, Bioaccumulative and Toxic                                                               |
| PNEC    | Predicted No-Effect Concentration                                                                   |
| ppm     | Parts per million                                                                                   |
| RTECS   | Registry of Toxic Effects of Chemical Substances (database of NIOSH with toxicological information) |
| STEL    | Short-term exposure limit                                                                           |
| STOT RE | Specific target organ toxicity - repeated exposure                                                  |
| TLV®    | Threshold Limit Values                                                                              |
| TWA     | Time-weighted average                                                                               |
| vPvB    | Very Persistent and very Bioaccumulative                                                            |

### Key literature references and sources for data

Globally Harmonized System of Classification and Labelling of Chemicals ("Purple book").  
Transport of dangerous goods by road or rail (49 CFR US DOT). International Maritime Dangerous Goods Code (IMDG).  
Dangerous Goods Regulations (DGR) for the air transport (IATA).

### Classification procedure

Physical and chemical properties: The classification is based on tested mixture.  
Health hazards, Environmental hazards: The method for classification of the mixture is based on ingredients of the mixture (additivity formula).

### List of relevant phrases (code and full text as stated in section 2 and 3)

| Code | Text                                                               |
|------|--------------------------------------------------------------------|
| H300 | Fatal if swallowed.                                                |
| H310 | Fatal in contact with skin.                                        |
| H330 | Fatal if inhaled.                                                  |
| H373 | May cause damage to organs through prolonged or repeated exposure. |
| H400 | Very toxic to aquatic life.                                        |
| H410 | Very toxic to aquatic life with long lasting effects.              |
