according to OSHA HCS (29CFR 1910.1200) and WHMIS 2015 Regulations

Revision: August 22, 2020

### Trade name: Iron Std, 1000ppm as Fe,SS

P280	(Cont'd. of page 1) Wear protective gloves/protective clothing/eye protection/face protection.
	If swallowed: Rinse mouth. Do NOT induce vomiting.
	If on skin (or hair): Take off immediately all contaminated clothing. Rinse skin with
	water/shower.
P304+P340	IF INHALED: Remove person to fresh air and keep comfortable for breathing.
P305+P351+P338	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if
	present and easy to do. Continue rinsing.
P310	Immediately call a poison center/doctor.
P321	Specific treatment (see on this label).
P363	Wash contaminated clothing before reuse.
P390	Absorb spillage to prevent material damage.
P405	Store locked up.
P406	Store in corrosive resistant container with a resistant inner liner.
P501	Dispose of contents/container in accordance with local/regional/national/international regulations.
<sup>.</sup> Other hazards ⊺	here are no other hazards not otherwise classified that have been identified.

### 3 Composition/information on ingredients

#### · Chemical characterization: Mixtures

· Compone	nts:	
		30.098%
	♦ Met. Corr.1, H290; Skin Corr. 1A, H314; Eye Dam. 1, H318	
7732-18-5	Water	69.288%
7783-85-9	Ferrous ammonium sulfate	0.614%
	♦ Skin Irrit. 2, H315; Eye Irrit. 2A, H319; STOT SE 3, H335	
	information:	

#### Additional information:

For the listed ingredient(s), the identity and/or exact percentage(s) are being withheld as a trade secret. For the wording of the listed Hazard Statements, refer to section 16.

#### **4** First-aid measures

#### <sup>•</sup> Description of first aid measures · After inhalation: Supply fresh air; consult doctor in case of complaints. • After skin contact: Immediately remove any clothing soiled by the product. Immediately rinse with water. If skin irritation continues, consult a doctor. Seek immediate help for blistering or open wounds. · After eye contact: Protect unharmed eye. Remove contact lenses if worn. Rinse opened eye for several minutes under running water. Then consult a doctor. · After swallowing: Rinse out mouth and then drink plenty of water. Do not induce vomiting; immediately call for medical help. Most important symptoms and effects, both acute and delayed: (Cont'd. on page 3)

according to OSHA HCS (29CFR 1910.1200) and WHMIS 2015 Regulations

Revision: August 22, 2020

#### Trade name: Iron Std, 1000ppm as Fe,SS

(Cont'd. of page 2)

Strong caustic effect on skin and mucous membranes. Gastric or intestinal disorders when ingested. Eye damage. Acidosis **Danger:** 

Danger of gastric perforation. Causes serious eye damage.

Danger of impaired breathing.

· Indication of any immediate medical attention and special treatment needed:

Medical supervision for at least 48 hours.

If medical advice is needed, have product container or label at hand.

### **5** Fire-fighting measures

#### • Extinguishing media

#### • Suitable extinguishing agents:

The product is not flammable.

Use fire fighting measures that suit the environment.

• For safety reasons unsuitable extinguishing agents: None.

· Special hazards arising from the substance or mixture

During heating or in case of fire poisonous gases are produced.

Advice for firefighters

· Protective equipment:

Wear self-contained respiratory protective device.

Wear fully protective suit.

### 6 Accidental release measures

#### <sup>•</sup> Personal precautions, protective equipment and emergency procedures

For large spills, use respiratory protective device against the effects of fumes/dust/aerosol.

Wear protective equipment. Keep unprotected persons away.

Ensure adequate ventilation.

• Environmental precautions Do not allow to enter sewers/ surface or ground water.

### • Methods and material for containment and cleaning up

Use limestone to neutralize and/or absorb spill.

Clean the affected area carefully; suitable cleaners are:

Warm water

Dispose of the collected material according to regulations.

#### **Reference to other sections**

See Section 7 for information on safe handling.

See Section 8 for information on personal protection equipment.

See Section 13 for disposal information.

# 7 Handling and storage

#### · Handling

· Precautions for safe handling:

(Cont'd. on page 4)

### according to OSHA HCS (29CFR 1910.1200) and WHMIS 2015 Regulations

Revision: August 22, 2020

#### Trade name: Iron Std, 1000ppm as Fe,SS

(Cont'd. of page 3)

Avoid splashes or spray in enclosed areas. Use only in well ventilated areas. Avoid breathing mist, vapors, or spray. Avoid contact with the eyes and skin. Open and handle receptacle with care.

# <sup>•</sup> Conditions for safe storage, including any incompatibilities

· Requirements to be met by storerooms and receptacles:

Store in cool, dry conditions in well sealed receptacles.

Store only in the original receptacle.

Unsuitable material for receptacle: steel.

Unsuitable material for receptacle: aluminium.

### • Information about storage in one common storage facility: Store away from foodstuffs. Do not store together with alkalis (caustic solutions).

Store away from metals.

- Further information about storage conditions: Store in cool, dry conditions in well sealed receptacles.
- Specific end use(s) No relevant information available.

# 8 Exposure controls/personal protection

#### <sup>·</sup> Control parameters

· Components with limit values that require monitoring at the workplace:

The following constituent is the only constituent of the product which has a PEL, TLV or other recommended exposure limit.

### 7664-93-9 Sulfuric acid

PEL (USA)	Long-term value: 1 mg/m <sup>3</sup>
REL (USA)	Long-term value: 1 mg/m <sup>3</sup>
TLV (USA)	Long-term value: 0.2* mg/m³ *as thoracic fraction
EL (Canada)	Long-term value: 0.2 mg/m³ ACGIH A2; IARC 1
EV (Canada)	Long-term value: 0.2 mg/m <sup>3</sup>
LMPE (Mexico)	Long-term value: 0.2* mg/m³ A2;*fracción torácica

### <sup>•</sup> Exposure controls

#### General protective and hygienic measures:

The usual precautionary measures for handling chemicals should be followed.

Keep away from foodstuffs, beverages and feed.

Immediately remove all soiled and contaminated clothing.

Wash hands before breaks and at the end of work.

Avoid contact with the eyes and skin.

Do not inhale dust / smoke / mist.

· Engineering controls: Provide adequate ventilation.

• Breathing equipment: Use suitable respiratory protective device when high concentrations are present.

Protection of hands:

(Cont'd. on page 5)

according to OSHA HCS (29CFR 1910.1200) and WHMIS 2015 Regulations

Revision: August 22, 2020

Trade name: Iron Std, 1000ppm as Fe,SS

(Cont'd. of page 4)

Protective gloves

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. **Material of gloves** 

Nitrile rubber, NBR Neoprene gloves

Natural rubber, NR

Laminated film gloves.

· Not suitable are gloves made of the following materials: PVA gloves

· Eye protection:

Safety glasses

· Body protection: Protective work clothing

- Limitation and supervision of exposure into the environment No relevant information available.
- · Risk management measures No relevant information available.

Information on basic physical ar	nd chemical properties	
Appearance:	• •	
Form:	Liquid	
Color:	According to product specification	
Odor:	Characteristic	
Odor threshold:	Not determined.	
pH-value at 20 °C (68 °F):	<2.0	
Melting point/Melting range:	Not determined.	
Boiling point/Boiling range:	Not determined.	
Flash point:	The product is not flammable.	
Flammability (solid, gaseous):	Not applicable.	
Auto-ignition temperature:	Not determined.	
Decomposition temperature:	Not determined.	
Danger of explosion:	Product does not present an explosion hazard.	
Explosion limits		
Lower:	Not determined.	
Upper:	Not determined.	
Oxidizing properties:	Not determined.	
Vapor pressure:	Not determined.	
Density:

# 11 Toxicological information

### <sup>·</sup> Information on toxicological effects

• Acute toxicity: Based on available data, the classification criteria are not met.

- · LD/LC50 values that are relevant for classification: None.
- · Primary irritant effect:
- On the skin: Strong caustic effect on skin and mucous membranes.
- On the eye: Strong caustic effect.

• Sensitization: Based on available data, the classification criteria are not met.

· IARC (International Agency for Research on Cancer):

None of the ingredients are listed.

NTP (National Toxicology Program):

7664-93-9 Sulfuric acid

(Cont'd. on page 7)

Κ

according to OSHA HCS (29CFR 1910.1200) and WHMIS 2015 Regulations

Revision: August 22, 2020

Trade name: Iron Std, 1000ppm as Fe,SS

(Cont'd. of page 6)

#### · OSHA-Ca (Occupational Safety & Health Administration):

None of the ingredients are listed.

· Probable route(s) of exposure:

Ingestion.

Inhalation.

Eye contact.

Skin contact.

• Acute effects (acute toxicity, irritation and corrosivity): Causes severe skin burns and eye damage.

- Repeated dose toxicity: No relevant information available.
- Germ cell mutagenicity: Based on available data, the classification criteria are not met.
- · Carcinogenicity: Based on available data, the classification criteria are not met.
- Reproductive toxicity: Based on available data, the classification criteria are not met.
- STOT-single exposure: Based on available data, the classification criteria are not met.
- STOT-repeated exposure: Based on available data, the classification criteria are not met.
- Aspiration hazard: Based on available data, the classification criteria are not met.

### **12 Ecological information**

<sup>·</sup> Toxicity

- · Aquatic toxicity No relevant information available.
- · Persistence and degradability No relevant information available.
- · Bioaccumulative potential: No relevant information available.
- **Mobility in soil:** No relevant information available.
- · Additional ecological information
- · General notes:

Do not allow undiluted product or large quantities of it to reach ground water, water course or sewage system.

Rinse off of bigger amounts into drains or the aquatic environment may lead to decreased pH-values. A low pH-value harms aquatic organisms. If the dilution of the use-level pH-value is considerably increased after use, the aqueous waste, emptied into drains, is only low water-dangerous.

**Other adverse effects** No relevant information available.

# **13 Disposal considerations**

### <sup>·</sup> Waste treatment methods

#### · Recommendation:

Dilute concentrate with water and neutralize afterwards with suitable material (lime or chalk). The formed salts are inert and pose little hazard.

The user of this material has the responsibility to dispose of unused material, residues and containers in compliance with all relevant local, state and federal laws and regulations regarding treatment, storage and disposal for hazardous and nonhazardous wastes.

### <sup>·</sup> Uncleaned packagings

· Recommendation: Disposal must be made according to official regulations.

(Cont'd. on page 8)

according to OSHA HCS (29CFR 1910.1200) and WHMIS 2015 Regulations

Revision: August 22, 2020
