

# Safety Data Sheet

## ME5922SS

Version number: 1.4

Date of compilation: 2026-01-06

### SECTION 1: Identification

#### 1.1 Product identifier

Trade name **Mehlich III Concentrate A**  
SDS Identifier **ME5922SS**

#### 1.2 Relevant identified uses of the substance or mixture and uses advised against

Relevant identified uses laboratory and analytical use

#### 1.3 Details of the supplier of the safety data sheet

AquaPhoenix Scientific  
860 Gitts Run Road  
Hanover PA 17331  
United States

Telephone: (866) 632-1291  
e-mail: [info@aquaphoenixsci.com](mailto:info@aquaphoenixsci.com)  
Website: <https://www.aquaphoenixsci.com/>

#### 1.4 Emergency telephone number

Emergency information service ChemTel Inc.: 1-800-255-3924, +01-813-248-0585

### SECTION 2: Hazard(s) identification

#### 2.1 Classification of the substance or mixture

Classification acc. to OSHA "Hazard Communication Standard" (29 CFR 1910.1200, Rev. 2024)

| Hazard class                                        | Category | Hazard class and category | Hazard statement |
|-----------------------------------------------------|----------|---------------------------|------------------|
| hazardous to the aquatic environment - acute hazard | 3        | Aquatic Acute 3           | H402             |

For full text of abbreviations: see SECTION 16.

The most important adverse physicochemical, human health and environmental effects

Spillage and fire water can cause pollution of watercourses.

#### 2.2 Label elements

Labelling acc. to OSHA "Hazard Communication Standard" (29 CFR 1910.1200, Rev. 2024)

- Signal word not required

- Pictograms not required

- Hazard statements  
H402 Harmful to aquatic life.

- Precautionary statements  
P273 Avoid release to the environment.  
P501 Dispose of contents/container in accordance with local/regional/national/international regulations.

#### 2.3 Other hazards

Results of PBT and vPvB assessment

Does not contain a PBT-/vPvB-substance at a concentration of  $\geq 0.1\%$ .

# Safety Data Sheet

## ME5922SS

Version number: 1.4

Date of compilation: 2026-01-06

Endocrine disrupting properties

Does not contain an endocrine disruptor (ED) in a concentration of  $\geq 0.1\%$ .

### SECTION 3: Composition/information on ingredients

#### 3.1 Substances

Not relevant (mixture)

#### 3.2 Mixtures

Description of the mixture

| Name of substance | Identifier           | Wt%   | Classification acc. to GHS                                                                                      | Pictograms                                                                                                                                                              |
|-------------------|----------------------|-------|-----------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Water             | CAS No<br>7732-18-5  | 95.76 |                                                                                                                 |                                                                                                                                                                         |
| ammonium fluoride | CAS No<br>12125-01-8 | 2.78  | Acute Tox. 3 / H301<br>Acute Tox. 3 / H311<br>Acute Tox. 3 / H331<br>Aquatic Acute 2 / H401                     |                                                                                      |
| EDTA, Free Acid   | CAS No<br>60-00-4    | 1.46  | Acute Tox. 5 / H303<br>Acute Tox. 4 / H332<br>Eye Irrit. 2 / H319<br>STOT RE 2 / H373<br>Aquatic Acute 3 / H402 |   |

#### Remarks

For full text of abbreviations: see SECTION 16

### SECTION 4: First-aid measures

#### 4.1 Description of first-aid measures

General notes

Do not leave affected person unattended. Remove victim out of the danger area. Keep affected person warm, still and covered. Take off immediately all contaminated clothing. In all cases of doubt, or when symptoms persist, seek medical advice. In case of unconsciousness place person in the recovery position. Never give anything by mouth.

Following inhalation

If breathing is irregular or stopped, immediately seek medical assistance and start first aid actions. Provide fresh air.

Following skin contact

Wash with plenty of soap and water.

Following eye contact

Remove contact lenses, if present and easy to do. Continue rinsing. Irrigate copiously with clean, fresh water for at least 10 minutes, holding the eyelids apart.

Following ingestion

Rinse mouth with water (only if the person is conscious). Do NOT induce vomiting.

#### 4.2 Most important symptoms and effects, both acute and delayed

Symptoms and effects are not known to date.

#### 4.3 Indication of any immediate medical attention and special treatment needed

none

### SECTION 5: Fire-fighting measures

#### 5.1 Extinguishing media

# Safety Data Sheet

## ME5922SS

Version number: 1.4

Date of compilation: 2026-01-06

Suitable extinguishing media

Water spray, BC-powder, Carbon dioxide (CO<sub>2</sub>)

Unsuitable extinguishing media

Water jet

### 5.2 Special hazards arising from the substance or mixture

Hazardous combustion products

Nitrogen oxides (NO<sub>x</sub>), Carbon monoxide (CO), Carbon dioxide (CO<sub>2</sub>)

### 5.3 Advice for firefighters

In case of fire and/or explosion do not breathe fumes. Coordinate firefighting measures to the fire surroundings. Do not allow firefighting water to enter drains or water courses. Collect contaminated firefighting water separately. Fight fire with normal precautions from a reasonable distance.

## SECTION 6: Accidental release measures

### 6.1 Personal precautions, protective equipment and emergency procedures

For non-emergency personnel

Remove persons to safety.

For emergency responders

Wear breathing apparatus if exposed to vapors/dust/aerosols/gases.

### 6.2 Environmental precautions

Keep away from drains, surface and ground water. Retain contaminated washing water and dispose of it. If substance has entered a water course or sewer, inform the responsible authority.

### 6.3 Methods and material for containment and cleaning up

Advice on how to contain a spill

Covering of drains

Advice on how to clean up a spill

Wipe up with absorbent material (e.g. cloth, fleece). Collect spillage: sawdust, kieselgur (diatomite), sand, universal binder

Appropriate containment techniques

Use of adsorbent materials.

Other information relating to spills and releases

Place in appropriate containers for disposal. Ventilate affected area.

### 6.4 Reference to other sections

Hazardous combustion products: see section 5. Personal protective equipment: see section 8. Incompatible materials: see section 10. Disposal considerations: see section 13.

## SECTION 7: Handling and storage

### 7.1 Precautions for safe handling

Recommendations

Wear impact- and splash-resistant eyewear.

- Measures to prevent fire as well as aerosol and dust generation

Use local and general ventilation. Use only in well-ventilated areas.

Advice on general occupational hygiene

Wash hands after use. Do not eat, drink and smoke in work areas. Remove contaminated clothing and protective equipment before entering eating areas. Never keep food or drink in the vicinity of chemicals. Never place chemicals in containers that are normally used for food or drink. Keep away from food, drink and animal feedingstuffs.

# Safety Data Sheet

## ME5922SS

Version number: 1.4

Date of compilation: 2026-01-06

### 7.2 Conditions for safe storage, including any incompatibilities

Control of the effects

Protect against external exposure, such as  
heat, high temperatures, light, UV-radiation/sunlight

## SECTION 8: Exposure controls/personal protection

### 8.1 Control parameters

Occupational exposure limit values (Workplace Exposure Limits)  
this information is not available

#### Relevant DNELs of components

| Name of substance | CAS No     | Endpoint | Threshold level       | Protection goal, route of exposure | Used in           | Exposure time              |
|-------------------|------------|----------|-----------------------|------------------------------------|-------------------|----------------------------|
| ammonium fluoride | 12125-01-8 | DNEL     | 2.5 mg/m <sup>3</sup> | human, inhalatory                  | worker (industry) | chronic - systemic effects |
| ammonium fluoride | 12125-01-8 | DNEL     | 2.5 mg/m <sup>3</sup> | human, inhalatory                  | worker (industry) | acute - systemic effects   |
| ammonium fluoride | 12125-01-8 | DNEL     | 2.5 mg/m <sup>3</sup> | human, inhalatory                  | worker (industry) | chronic - local effects    |
| ammonium fluoride | 12125-01-8 | DNEL     | 0.36 mg/kg bw/day     | human, dermal                      | worker (industry) | chronic - systemic effects |
| ammonium fluoride | 12125-01-8 | DNEL     | 0.36 mg/kg bw/day     | human, dermal                      | worker (industry) | acute - systemic effects   |
| EDTA, Free Acid   | 60-00-4    | DNEL     | 1.5 mg/m <sup>3</sup> | human, inhalatory                  | worker (industry) | chronic - systemic effects |
| EDTA, Free Acid   | 60-00-4    | DNEL     | 3 mg/m <sup>3</sup>   | human, inhalatory                  | worker (industry) | acute - systemic effects   |
| EDTA, Free Acid   | 60-00-4    | DNEL     | 1.5 mg/m <sup>3</sup> | human, inhalatory                  | worker (industry) | chronic - local effects    |
| EDTA, Free Acid   | 60-00-4    | DNEL     | 3 mg/m <sup>3</sup>   | human, inhalatory                  | worker (industry) | acute - local effects      |

#### Relevant PNECs of components

| Name of substance | CAS No     | Endpoint | Threshold level | Organism              | Environmental compartment    | Exposure time                |
|-------------------|------------|----------|-----------------|-----------------------|------------------------------|------------------------------|
| ammonium fluoride | 12125-01-8 | PNEC     | 0.89 mg/l       | aquatic organisms     | freshwater                   | short-term (single instance) |
| ammonium fluoride | 12125-01-8 | PNEC     | 51 mg/l         | aquatic organisms     | sewage treatment plant (STP) | short-term (single instance) |
| ammonium fluoride | 12125-01-8 | PNEC     | 11 mg/kg        | terrestrial organisms | soil                         | short-term (single instance) |
| EDTA, Free Acid   | 60-00-4    | PNEC     | 2.17 mg/l       | aquatic organisms     | freshwater                   | short-term (single instance) |
| EDTA, Free Acid   | 60-00-4    | PNEC     | 0.217 mg/l      | aquatic organisms     | marine water                 | short-term (single instance) |
| EDTA, Free Acid   | 60-00-4    | PNEC     | 50 mg/l         | aquatic organisms     | sewage treatment plant (STP) | short-term (single instance) |
| EDTA, Free Acid   | 60-00-4    | PNEC     | 1.11 mg/kg      | terrestrial organisms | soil                         | short-term (single instance) |

# Safety Data Sheet

## ME5922SS

Version number: 1.4

Date of compilation: 2026-01-06

### 8.2 Exposure controls

Appropriate engineering controls

General ventilation.

Individual protection measures (personal protective equipment)

Eye/face protection

Wear eye/face protection.

Skin protection

- Hand protection

Wear suitable gloves. Chemical protection gloves are suitable, which are tested according to EN 374. Check leak-tightness/impermeability prior to use. In the case of wanting to use the gloves again, clean them before taking off and air them well. For special purposes, it is recommended to check the resistance to chemicals of the protective gloves mentioned above together with the supplier of these gloves.

- Other protection measures

Wash hands thoroughly after handling.

Respiratory protection

In case of inadequate ventilation wear respiratory protection.

Environmental exposure controls

Use appropriate container to avoid environmental contamination. Keep away from drains, surface and ground water.

## SECTION 9: Physical and chemical properties

### 9.1 Information on basic physical and chemical properties

**Product description:** See website or catalog for details.

|                                                          |                                                           |
|----------------------------------------------------------|-----------------------------------------------------------|
| Physical state                                           | liquid                                                    |
| Color                                                    | colorless - clear                                         |
| Odor                                                     | characteristic                                            |
| Melting point/freezing point                             | not determined                                            |
| Boiling point or initial boiling point and boiling range | 100 °C at 1 atm                                           |
| Evaporation rate                                         | not determined                                            |
| Flammability                                             | this material is combustible, but will not ignite readily |
| Lower and upper explosion limit                          | not determined                                            |
| Flash point                                              | not determined                                            |
| Auto-ignition temperature                                | >400 °C                                                   |
| Decomposition temperature                                | not relevant                                              |
| pH (value)                                               | not determined                                            |
| Kinematic viscosity                                      | not determined                                            |
| Solubility(ies)                                          | not determined                                            |

# Safety Data Sheet

## SECTION 10: Stability and reactivity

### 10.1 Reactivity

Concerning incompatibility: see below "Conditions to avoid" and "Incompatible materials".

### 10.2 Chemical stability

See below "Conditions to avoid".

### 10.3 Possibility of hazardous reactions

No known hazardous reactions.

### 10.4 Conditions to avoid

There are no specific conditions known which have to be avoided.

### 10.5 Incompatible materials

Oxidizers

### 10.6 Hazardous decomposition products

Reasonably anticipated hazardous decomposition products produced as a result of use, storage, spill and heating are not known. Hazardous combustion products: see section 5.

## SECTION 11: Toxicological information

### 11.1 Information on toxicological effects

Test data are not available for the complete mixture.

#### Classification procedure

The method for classification of the mixture is based on ingredients of the mixture (additivity formula).

#### Classification acc. to OSHA "Hazard Communication Standard" (29 CFR 1910.1200, Rev. 2024)

#### Acute toxicity

Shall not be classified as acutely toxic.

# Safety Data Sheet

## ME5922SS

Version number: 1.4

Date of compilation: 2026-01-06

### Acute toxicity estimate (ATE) of components

| Name of substance | CAS No     | Exposure route        | ATE         |
|-------------------|------------|-----------------------|-------------|
| ammonium fluoride | 12125-01-8 | oral                  | 223 mg/kg   |
| ammonium fluoride | 12125-01-8 | dermal                | 300 mg/kg   |
| ammonium fluoride | 12125-01-8 | inhalation: dust/mist | 0.5 mg/l/4h |
| EDTA, Free Acid   | 60-00-4    | oral                  | 4,500 mg/kg |
| EDTA, Free Acid   | 60-00-4    | inhalation: dust/mist | 1.5 mg/l/4h |

### Skin corrosion/irritation

Shall not be classified as corrosive/irritant to skin.

### Serious eye damage/eye irritation

Shall not be classified as seriously damaging to the eye or eye irritant.

### Respiratory or skin sensitization

Shall not be classified as a respiratory or skin sensitizer.

### Germ cell mutagenicity

Shall not be classified as germ cell mutagenic.

### Carcinogenicity

Shall not be classified as carcinogenic.

### Reproductive toxicity

Shall not be classified as a reproductive toxicant.

### Specific target organ toxicity - single exposure

Shall not be classified as a specific target organ toxicant (single exposure).

### Specific target organ toxicity - repeated exposure

Shall not be classified as a specific target organ toxicant (repeated exposure).

### Aspiration hazard

Shall not be classified as presenting an aspiration hazard.

## 11.2 Information on other hazards

There is no additional information.

## SECTION 12: Ecological information

### 12.1 Toxicity

Harmful to aquatic life.

### Aquatic toxicity (acute) of components

| Name of substance | CAS No     | Endpoint | Value     | Species               | Exposure time |
|-------------------|------------|----------|-----------|-----------------------|---------------|
| ammonium fluoride | 12125-01-8 | LC50     | 209 mg/l  | fish                  | 96 h          |
| ammonium fluoride | 12125-01-8 | EC50     | 2.94 mg/l | aquatic invertebrates | 48 h          |
| EDTA, Free Acid   | 60-00-4    | LC50     | >100 mg/l | fish                  | 96 h          |
| EDTA, Free Acid   | 60-00-4    | EC50     | >114 mg/l | aquatic invertebrates | 48 h          |
| EDTA, Free Acid   | 60-00-4    | ErC50    | >60 mg/l  | algae                 | 72 h          |

# Safety Data Sheet

## ME5922SS

Version number: 1.4

Date of compilation: 2026-01-06

### 12.2 Persistence and degradability

Data are not available.

### 12.3 Bioaccumulative potential

Data are not available.

### 12.4 Mobility in soil

Data are not available.

### 12.5 Results of PBT and vPvB assessment

Does not contain a PBT-/vPvB-substance at a concentration of  $\geq 0.1\%$ .

### 12.6 Endocrine disrupting properties

Does not contain an endocrine disruptor (ED) in a concentration of  $\geq 0.1\%$ .

### 12.7 Other adverse effects

Data are not available.

## SECTION 13: Disposal considerations

### 13.1 Waste treatment methods

Please consider the relevant national or regional provisions.

## SECTION 14: Transport information

- |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |                                                                       |

| 14.6 | <b>Other relevant information</b><br>Shipping container markings and labels, received from AquaPhoenix, may vary from the above information. Products that are regulated for transport will be packaged by AquaPhoenix as Dangerous Goods in Excepted Quantities according to IATA, US DOT, and IMDG regulations. AquaPhoenix may also elect to ship certain products as UN 3316 Chemical Kit, Hazard Class 9, Packing Group II or III. In case of reshipment, it is the responsibility of the shipper to determine appropriate labels and markings in accordance with applicable transportation regulations. |                                                                       |
| 14.7 | <b>Maritime transport in bulk according to IMO instruments</b><br>The cargo is not intended to be carried in bulk.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |                                                                       |

### Information for each of the UN Model Regulations

#### Transport of dangerous goods by road or rail (49 CFR US DOT) - Additional information

Not subject to transport regulations.

#### International Maritime Dangerous Goods Code (IMDG) - Additional information

Not subject to IMDG.

#### International Civil Aviation Organization (ICAO-IATA/DGR) - Additional information

Not subject to ICAO-IATA.

Date of compilation: 2026-01-06

### SECTION 15: Regulatory information

#### 15.1 Safety, health and environmental regulations specific for the product in question

##### National regulations (United States)

##### Toxic Substance Control Act (TSCA)

all ingredients are listed (ACTIVE) or exempt from listing

##### Superfund Amendment and Reauthorization Act (SARA TITLE III )

- The List of Extremely Hazardous Substances and Their Threshold Planning Quantities (EPCRA Section 302, 304)

none of the ingredients are listed

- Specific Toxic Chemical Listings (EPCRA Section 313)

none of the ingredients are listed

##### Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA)

- List of Hazardous Substances and Reportable Quantities (CERCLA section 102a) (40 CFR 302.4)

| Name of substance | CAS No     | Remarks | Statutory code | Final RQ pounds (Kg) |
|-------------------|------------|---------|----------------|----------------------|
| EDTA, Free Acid   | 60-00-4    |         | 1              | 5000 (2270)          |
| ammonium fluoride | 12125-01-8 |         | 1              | 100 (45,4)           |

##### Legend

1 "1" indicates that the statutory source is section 311(b)(2) of the Clean Water Act

##### Clean Air Act

none of the ingredients are listed

##### Right to Know Hazardous Substance List

- Hazardous Substance List (NJ-RTK)

| Name of substance | CAS No     | Remarks | Classifications |
|-------------------|------------|---------|-----------------|
| EDTA, Free Acid   | 60-00-4    |         |                 |
| ammonium fluoride | 12125-01-8 |         |                 |

##### California Environmental Protection Agency (Cal/EPA): Proposition 65 - Safe Drinking Water and Toxic Enforcement Act of 1987

none of the ingredients are listed

##### Industry or sector specific available guidance(s)

##### NPCA-HMIS® III

Hazardous Materials Identification System. American Coatings Association.

| Category        | Rating | Description                                                                                                                                                |
|-----------------|--------|------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Chronic         | *      | chronic (long-term) health effects may result from repeated overexposure                                                                                   |
| Health          | 0      | no significant risk to health                                                                                                                              |
| Flammability    | 1      | material that must be preheated before ignition can occur                                                                                                  |
| Physical hazard | 0      | material that is normally stable, even under fire conditions, and will not react with water, polymerize, decompose, condense, or self-react. Non-explosive |

| Abbr.          | Descriptions of used abbreviations                                                                                                                                               |
|----------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 49 CFR US DOT  | 49 CFR U.S. Department of Transportation                                                                                                                                         |
| Acute Tox.     | Acute toxicity                                                                                                                                                                   |
| Aquatic Acute  | Hazardous to the aquatic environment - acute hazard                                                                                                                              |
| ATE            | Acute Toxicity Estimate                                                                                                                                                          |
| CAS            | Chemical Abstracts Service (service that maintains the most comprehensive list of chemical substances)                                                                           |
| DGR            | Dangerous Goods Regulations (see IATA/DGR)                                                                                                                                       |
| DNEL           | Derived No-Effect Level                                                                                                                                                          |
| EC50           | Effective Concentration 50 %. The EC50 corresponds to the concentration of a tested substance causing 50 % changes in response (e.g. on growth) during a specified time interval |
| ED             | Endocrine disruptor                                                                                                                                                              |
| EINECS         | European Inventory of Existing Commercial Chemical Substances                                                                                                                    |
| ELINCS         | European List of Notified Chemical Substances                                                                                                                                    |
| ErC50          | ≡ EC50: in this method, that concentration of test substance which results in a 50 % reduction in either growth (EbC50) or growth rate (ErC50) relative to the control           |
| Eye Dam.       | Seriously damaging to the eye                                                                                                                                                    |
| Eye Irrit.     | Irritant to the eye                                                                                                                                                              |
| GHS            | "Globally Harmonized System of Classification and Labelling of Chemicals" developed by the United Nations                                                                        |
| IATA           | International Air Transport Association                                                                                                                                          |
| IATA/DGR       | Dangerous Goods Regulations (DGR) for the air transport (IATA)                                                                                                                   |
| ICAO           | International Civil Aviation Organization                                                                                                                                        |
| IMDG           | International Maritime Dangerous Goods Code                                                                                                                                      |
| LC50           | Lethal Concentration 50%: the LC50 corresponds to the concentration of a tested substance causing 50 % lethality during a specified time interval                                |
| NLP            | No-Longer Polymer                                                                                                                                                                |
| NPCA-HMIS® III | National Paint and Coatings Association: Hazardous Materials Identification System - HMIS® III, Third Edition                                                                    |
| OSHA           | Occupational Safety and Health Administration (United States)                                                                                                                    |
| PBT            | Persistent, Bioaccumulative and Toxic                                                                                                                                            |
| PNEC           | Predicted No-Effect Concentration                                                                                                                                                |
| RTECS          | Registry of Toxic Effects of Chemical Substances (database of NIOSH with toxicological information)                                                                              |
| STOT RE        | Specific target organ toxicity - repeated exposure                                                                                                                               |
| vPvB           | Very Persistent and very Bioaccumulative                                                                                                                                         |

# Safety Data Sheet

## ME5922SS

Version number: 1.4

Date of compilation: 2026-01-06

### Key literature references and sources for data

Globally Harmonized System of Classification and Labelling of Chemicals ("Purple book").  
Transport of dangerous goods by road or rail (49 CFR US DOT). International Maritime Dangerous Goods Code (IMDG).  
Dangerous Goods Regulations (DGR) for the air transport (IATA).

### Classification procedure

Physical and chemical properties: The classification is based on tested mixture.  
Health hazards, Environmental hazards: The method for classification of the mixture is based on ingredients of the mixture (additivity formula).

### List of relevant phrases (code and full text as stated in section 2 and 3)

| Code | Text                                                               |
|------|--------------------------------------------------------------------|
| H301 | Toxic if swallowed.                                                |
| H303 | May be harmful if swallowed.                                       |
| H311 | Toxic in contact with skin.                                        |
| H319 | Causes serious eye irritation.                                     |
| H331 | Toxic if inhaled.                                                  |
| H332 | Harmful if inhaled.                                                |
| H373 | May cause damage to organs through prolonged or repeated exposure. |
| H401 | Toxic to aquatic life.                                             |
| H402 | Harmful to aquatic life.                                           |
