(Cont'd. on page 2)

according to OSHA HCS (29CFR 1910.1200) and WHMIS 2015 Regulations

Revision: August 22, 2020

#### Trade name: Magnesium Nitrate, Lab Grade

(Cont'd. of page 1) P501 Dispose of contents/container in accordance with local/regional/national/international regulations.

• NFPA ratings (scale 0 - 4) The substance possesses oxidizing properties.

• Other hazards There are no other hazards not otherwise classified that have been identified.

### **3** Composition/information on ingredients

<sup>•</sup> Chemical characterization: Substances

· CAS No. Description

10377-60-3 magnesium nitrate

#### **4 First-aid measures**

#### <sup>•</sup> Description of first aid measures

- · General information: Immediately remove any clothing soiled by the product.
- After inhalation: Supply fresh air; consult doctor in case of complaints.

#### · After skin contact:

Brush off loose particles from skin.

Immediately rinse with water.

If skin irritation is experienced, consult a doctor.

- · After eye contact:
- Remove contact lenses if worn.

Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor.

#### • After swallowing:

Rinse out mouth and then drink plenty of water.

Do not induce vomiting; immediately call for medical help.

Most important symptoms and effects, both acute and delayed:

Gastric or intestinal disorders when ingested.

Diarrhea.

Methaemoglobinaemia

- · Danger: No relevant information available.
- · Indication of any immediate medical attention and special treatment needed:

If medical advice is needed, have product container or label at hand.

#### 5 Fire-fighting measures

#### Extinguishing media

• Suitable extinguishing agents: Use fire fighting measures that suit the environment.

• For safety reasons unsuitable extinguishing agents: No relevant information available.

#### • Special hazards arising from the substance or mixture

During heating or in case of fire poisonous gases are produced.

May intensify fire; oxidizer.

## <sup>•</sup> Advice for firefighters

### Protective equipment:

Wear self-contained respiratory protective device.

#### Wear fully protective suit.

according to OSHA HCS (29CFR 1910.1200) and WHMIS 2015 Regulations

Revision: August 22, 2020

#### Trade name: Magnesium Nitrate, Lab Grade

(Cont'd. of page 2)

#### 6 Accidental release measures

- **Personal precautions, protective equipment and emergency procedures** Ensure adequate ventilation.
- Environmental precautions Do not allow to enter sewers/ surface or ground water.

#### · Methods and material for containment and cleaning up

Pick up mechanically.

Sweep up and place into an appropriate container.

Send for recovery or disposal in suitable receptacles.

#### **Reference to other sections**

See Section 7 for information on safe handling.

See Section 8 for information on personal protection equipment.

See Section 13 for disposal information.

### 7 Handling and storage

<sup>·</sup> Handling

• Precautions for safe handling: Use only in well ventilated areas.

- · Information about protection against explosions and fires: No special measures required.
- Conditions for safe storage, including any incompatibilities
- Requirements to be met by storerooms and receptacles: No special requirements.
- $\cdot$  Information about storage in one common storage facility:

Store away from foodstuffs.

Store away from flammable substances.

• Further information about storage conditions:

Keep containers tightly sealed.

Store in cool, dry conditions in well sealed receptacles.

Specific end use(s) No relevant information available.

#### 8 Exposure controls/personal protection

#### <sup>•</sup> Control parameters

· Components with limit values that require monitoring at the workplace:

The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace.

#### • Exposure controls

#### · General protective and hygienic measures:

The usual precautionary measures for handling chemicals should be followed.

Keep away from foodstuffs, beverages and feed.

Wash hands before breaks and at the end of work.

- Engineering controls: Provide adequate ventilation.
- · Breathing equipment: Not required under normal conditions of use.
- Protection of hands: Rubber gloves

Material of gloves

### Butyl rubber, BR

Neoprene gloves

(Cont'd. on page 4)

according to OSHA HCS (29CFR 1910.1200) and WHMIS 2015 Regulations

Revision: August 22, 2020

#### Trade name: Magnesium Nitrate, Lab Grade

(Cont'd. of page 3)

Nitrile rubber, NBR Natural rubber, NR

Sensibilization by the components in the glove materials is possible.

Eye protection:

Safety glasses

Follow relevant national guidelines concerning the use of protective eyewear. • **Body protection:** Protection may be required for spills.

Limitation and supervision of exposure into the environment

No relevant information available.

#### 9 Physical and chemical properties Information on basic physical and chemical properties · Appearance: Form: Powder White Color: · Odor: Characteristic · Odor threshold: Not determined. · pH-value: Not applicable. • Melting point/Melting range: Not determined. · Boiling point/Boiling range: Not determined. · Flash point: The product is not flammable. · Flammability (solid, gaseous): Contact with combustible material may cause fire. • Auto-ignition temperature: Not determined. • Decomposition temperature: Not determined. · Danger of explosion: Product does not present an explosion hazard. · Explosion limits Lower: Not determined. Upper: Not determined. Oxidizing properties: Oxidizer · Vapor pressure: Not determined. · Density: **Relative density:** Not determined. Vapor density: Not applicable. **Evaporation rate:** Not applicable. · Solubility in / Miscibility with Soluble. Water: · Partition coefficient (n-octanol/water): Not determined. · Viscosity (Cont'd. on page 5)

Safety Data Sheet according to OSHA HCS (29CFR 1910.1200) and WHMIS 2015 Regulations

Revision: August 22, 2020

Reactivity: No relevant information available. Chemical stability: Stable under normal temperatures and pressures. Thermal decomposition / conditions to be avoided: No decomposition if used and stored according to specifications. Possibility of hazardous reactions Acts as an oxidizing agent on organic materials such as wood, paper and fats. Hazardous gaess may be released if heated above the decomposition point. Contact with acids releases toxic gases. Conditions to avoid No relevant information available. Incompatible materials Flammable materials. Hazardous decomposition products Under fire conditions only: Nitrogen oxides Toxicological information Information on toxicological effects Acute toxicity: Based on available data, the classification criteria are not met. LD/LC50 values that are relevant for classification criteria are not met. LD/LC50 values that are relevant for classification criteria are not met. Revision: August 22, 2020

Trade name: Magnesium Nitrate, Lab Grade

(Cont'd. of page 5)

- **STOT-single exposure:** Based on available data, the classification criteria are not met.
- · STOT-repeated exposure: Based on available data, the classification criteria are not met.
- · Aspiration hazard: Based on available data, the classification criteria are not met.

#### **12 Ecological information**

· Toxicity

· Aquatic toxicity No relevant information available.

- **Persistence and degradability** No relevant information available.
- · Bioaccumulative potential: No relevant information available.
- · Mobility in soil: No relevant information available.
- <sup>•</sup> Additional ecological information
- · General notes:

Do not allow undiluted product or large quantities of it to reach ground water, water course or sewage system.

Other adverse effects No relevant information available.

### 13 Disposal considerations

#### <sup>•</sup> Waste treatment methods

#### · Recommendation:

The user of this material has the responsibility to dispose of unused material, residues and containers in compliance with all relevant local, state and federal laws and regulations regarding treatment, storage and disposal for hazardous and nonhazardous wastes. Residual materials should be treated as hazardous.

#### <sup>·</sup> Uncleaned packagings

· Recommendation: Disposal must be made according to official regulations.
