# Safety Data Sheet

according to OSHA HCS (29CFR 1910.1200) and WHMIS 2015 Regulations

Revision: August 12, 2020

#### Trade name: Nitric Acid, 0.1M

	(Cont'd. of page 1)
P280	Wear protective gloves and eye protection.
P302+P352	If on skin: Wash with plenty of water.
P305+P351+P33	88 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if
	present and easy to do. Continue rinsing.
P332+P313	If skin irritation occurs: Get medical advice/attention.
P362+P364	Take off contaminated clothing and wash it before reuse.
P337+P313	If eye irritation persists: Get medical advice/attention.
P390	Absorb spillage to prevent material damage.
P406	Store in corrosive resistant container with a resistant inner liner.

# **3** Composition/information on ingredients

#### · Chemical characterization: Mixtures

#### · Components:

7732-18-5 Water

7697-37-2 Nitric acid

- 📀 Ox. Liq. 2, H272
- Acute Tox. 3, H331
- 💑 Met. Corr.1, H290; Skin Corr. 1A, H314; Eye Dam. 1, H318

• Additional information: For the wording of the listed Hazard Statements, refer to section 16.

# 4 First-aid measures

## • Description of first aid measures

• General information: Immediately remove any clothing soiled by the product.

- After inhalation: Supply fresh air; consult doctor in case of complaints.
- After skin contact:

Immediately wash with water and soap and rinse thoroughly.

If skin irritation continues, consult a doctor.

#### • After eye contact:

Remove contact lenses if worn.

Rinse opened eye for several minutes under running water. Then consult a doctor.

After swallowing:

Rinse out mouth and then drink plenty of water.

Do not induce vomiting; immediately call for medical help.

- Most important symptoms and effects, both acute and delayed:
- Nausea in case of ingestion.

Gastric or intestinal disorders when ingested.

- Causes skin and eye irritation.
- Methaemoglobinaemia
- · Danger: No relevant information available.
- · Indication of any immediate medical attention and special treatment needed:
- Medical supervision for at least 48 hours.

If medical advice is needed, have product container or label at hand.

# **5** Fire-fighting measures

(Cont'd. on page 3)

according to OSHA HCS (29CFR 1910.1200) and WHMIS 2015 Regulations

Revision: August 12, 2020

Trade name: Nitric Acid, 0.1M

(Cont'd. of page 2)

# • Extinguishing media

• Suitable extinguishing agents: Use fire fighting measures that suit the environment.

- For safety reasons unsuitable extinguishing agents: No relevant information available.
- · Special hazards arising from the substance or mixture
- During heating or in case of fire poisonous gases are produced.
- Advice for firefighters
- · Protective equipment:

Wear self-contained respiratory protective device. Wear fully protective suit.

# 6 Accidental release measures

# <sup>•</sup> Personal precautions, protective equipment and emergency procedures

Wear protective equipment. Keep unprotected persons away.

Ensure adequate ventilation.

## · Environmental precautions

Do not allow undiluted product or large quantities of it to reach ground water, water course or sewage system.

## <sup>•</sup> Methods and material for containment and cleaning up

Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Send for recovery or disposal in suitable receptacles.

#### Reference to other sections

See Section 7 for information on safe handling.

See Section 8 for information on personal protection equipment.

See Section 13 for disposal information.

# 7 Handling and storage

## <sup>·</sup> Handling

## Precautions for safe handling:

Use only in well ventilated areas.

Avoid splashes or spray in enclosed areas.

Prevent formation of aerosols.

· Information about protection against explosions and fires: No special measures required.

## <sup>•</sup> Conditions for safe storage, including any incompatibilities

Requirements to be met by storerooms and receptacles:

Store only in the original receptacle.

Unsuitable material for receptacle: aluminium.

Unsuitable material for receptacle: steel.

Avoid storage near extreme heat.

## Information about storage in one common storage facility:

Store away from metals.

Store away from foodstuffs.

## • Further information about storage conditions: Keep containers tightly sealed.

• Specific end use(s) No relevant information available.

(Cont'd. of page 5)

# 10 Stability and reactivity

· Reactivity: No relevant information available.

- Chemical stability: Stable under normal temperatures and pressures.
- · Thermal decomposition / conditions to be avoided:
- No decomposition if used and stored according to specifications.

#### Possibility of hazardous reactions

Toxic fumes may be released if heated above the decomposition point.

- Corrodes aluminium.
- Reacts with alkali (lyes).

Corrodes copper and brass.

Reacts with certain metals.

Reacts with organic materials.

· Conditions to avoid Excessive heat.

Incompatible materials

Metals.

Alkalis.

## · Hazardous decomposition products

Under fire conditions only:

Nitrogen oxides

# 11 Toxicological information

· Information on toxicological effects

• Acute toxicity: Based on available data, the classification criteria are not met.

## · LD/LC50 values that are relevant for classification:

Nitric Acid 1-2.999%

Inhalative LC50/4h >214 mg/l (rat) (Acute Toxicity Estimate)

7697-37-2 Nitric acid

Inhalative LC50/4h >2.65 mg/l (rat)

## Primary irritant effect:

· On the skin: Irritant to skin and mucous membranes.

- On the eye: Causes eye irritation.
- · Sensitization: No sensitizing effects known.

· IARC (International Agency for Research on Cancer):

None of the ingredients are listed.

# • NTP (National Toxicology Program):

None of the ingredients are listed.

## OSHA-Ca (Occupational Safety & Health Administration):

None of the ingredients are listed.

# · Probable route(s) of exposure:

Ingestion.

Inhalation.

Eye contact. Skin contact.

(Cont'd. on page 7)

according to OSHA HCS (29CFR 1910.1200) and WHMIS 2015 Regulations

Revision: August 12, 2020

Trade name: Nitric Acid, 0.1M

(Cont'd. of page 6)

· Acute effects (acute toxicity, irritation and corrosivity):

Causes eye irritation.

Irritating to skin.

• Repeated dose toxicity: No relevant information available.

• Germ cell mutagenicity: Based on available data, the classification criteria are not met.

· Carcinogenicity: Based on available data, the classification criteria are not met.

• **Reproductive toxicity:** Based on available data, the classification criteria are not met.

• STOT-single exposure: Based on available data, the classification criteria are not met.

• STOT-repeated exposure: Based on available data, the classification criteria are not met.

• Aspiration hazard: Based on available data, the classification criteria are not met.

# **12 Ecological information**

# <sup>·</sup> Toxicity

· Aquatic toxicity No relevant information available.

· Persistence and degradability No relevant information available.

· Bioaccumulative potential: No relevant information available.

• Mobility in soil: No relevant information available.

<sup>•</sup> Additional ecological information

· General notes:

Do not allow undiluted product or large quantities of it to reach ground water, water course or sewage system.

· Other adverse effects No relevant information available.

# **13 Disposal considerations**

# <sup>·</sup> Waste treatment methods

# · Recommendation:

Must not be disposed of together with household garbage. Do not allow product to reach sewage system. The user of this material has the responsibility to dispose of unused material, residues and containers in compliance with all relevant local, state and federal laws and regulations regarding treatment, storage and disposal for hazardous and nonhazardous wastes. Residual materials should be treated as hazardous.

# <sup>·</sup> Uncleaned packagings

• **Recommendation:** Disposal must be made according to official regulations.

· Recommended cleansing agent: Water, if necessary with cleansing agents.
