Safety Data Sheet according to OSHA HCS (29CFR 1910.1200) and WHMIS 2015 Regulations

Revision: September 11, 2020

1 Identification
· Product identifier
 Trade name: Potassium Hydroxide,50%w/v Product code: PH9050SS
 Recommended use and restriction on use Recommended use: Laboratory chemicals Restrictions on use: No relevant information available.
 Details of the supplier of the Safety Data Sheet Manufacturer/Supplier: AquaPhoenix Scientific, Inc. 860 Gitts Run Road Hanover, PA 17331 USA Tel +1 (717)632-1291 Toll-Free: (866)632-1291 info@aquaphoenixsci.com Distributor: AquaPhoenix Scientific 860 Gitts Run Road, Hanover, PA 17331 (717) 632-1291 Emergency telephone number:
Emergency telephone number: ChemTel Inc. (800)255-3924 (North America) +1 (813)248-0585 (International)
2 Hazard(s) identification
· Classification of the substance or mixture
Met. Corr.1 H290 May be corrosive to metals. Acute Tox. 4 H302 Harmful if swallowed.
Skin Corr. 1A H314 Causes severe skin burns and eye damage.
Eye Dam. 1 H318 Causes serious eye damage.
 Label elements GHS label elements The product is classified and labeled according to the Globally Harmonized System (GHS). Hazard pictograms: GHS05 GHS07
 Signal word: Danger Hazard statements: H290 May be corrosive to metals. H302 Harmful if swallowed.

according to OSHA HCS (29CFR 1910.1200) and WHMIS 2015 Regulations

Revision: September 11, 2020

Trade name: Potassium Hydroxide,50%w/v

(Cont'd. of page 1)

P260	Do not breathe mist/vapors/spray.
P264	Wash thoroughly after handling.
P270	Do not eat, drink or smoke when using this product.
P280	Wear protective gloves/protective clothing/eye protection.
P301+P330+P331	If swallowed: Rinse mouth. Do NOT induce vomiting.
P303+P361+P353	If on skin (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower.
P304+P340	IF INHALED: Remove person to fresh air and keep comfortable for breathing.
P305+P351+P338	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P310	Immediately call a poison center/doctor.
P363	Wash contaminated clothing before reuse.
P390	Absorb spillage to prevent material damage.
P405	Store locked up.
P406	Store in corrosive resistant container with a resistant inner liner.
P501	Dispose of contents/container in accordance with local/regional/national/international regulations.
 Other hazards ⊺	There are no other hazards not otherwise classified that have been identified.

3 Composition/information on ingredients

· Chemical characterization: Mixtures

· Components:

1310-58-3 Potassium hydroxide

Met. Corr. 1, H290; Skin Corr. 1A, H314 Acute Tox. 4, H302

7732-18-5 Water

Additional information:

For the listed ingredient(s), the identity and/or exact percentage(s) are being withheld as a trade secret. For the wording of the listed Hazard Statements, refer to section 16.

4 First-aid measures

Description of first aid measures

· General information: Immediately remove any clothing soiled by the product.

After inhalation: Supply fresh air; consult doctor in case of complaints.

· After skin contact:

Immediately rinse with water.

If skin irritation continues, consult a doctor.

Seek immediate help for blistering or open wounds.

· After eye contact:

Protect unharmed eye.

Remove contact lenses if worn.

Rinse opened eye for several minutes under running water. Then consult a doctor.

· After swallowing:

Rinse out mouth and then drink plenty of water.

Do not induce vomiting; immediately call for medical help.

50%

50%

according to OSHA HCS (29CFR 1910.1200) and WHMIS 2015 Regulations

Revision: September 11, 2020

rade name: Potassium Hydroxide,50%w/v	
 Most important symptoms and effects, both acute and delayed: Nausea in case of ingestion. Strong caustic effect on skin and mucous membranes. Gastric or intestinal disorders when ingested. Danger: Danger of gastric perforation. Causes serious eye damage. Harmful if swallowed. Indication of any immediate medical attention and special treatment needed: Medical supervision for at least 48 hours. If medical advice is needed, have product container or label at hand. 	(Cont'd. of page :
5 Fire-fighting measures • Extinguishing media • Suitable extinguishing agents: The product is not flammable.	
Use fire fighting measures that suit the environment. • For safety reasons unsuitable extinguishing agents: None. • Special hazards arising from the substance or mixture Formation of toxic gases is possible during heating or in case of fire. • Advice for firefighters • Protective equipment:	

squipili

Wear self-contained respiratory protective device.

Wear fully protective suit.

6 Accidental release measures

Personal precautions, protective equipment and emergency procedures

Wear protective equipment. Keep unprotected persons away.

Ensure adequate ventilation.

Particular danger of slipping on leaked/spilled product.

For large spills, use respiratory protective device against the effects of fumes/dust/aerosol.

Environmental precautions

Do not allow undiluted product or large quantities of it to reach ground water, water course or sewage system.

Inform respective authorities in case of seepage into water course or sewage system.

Methods and material for containment and cleaning up

Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Send for recovery or disposal in suitable receptacles.

Reference to other sections

See Section 7 for information on safe handling.

See Section 8 for information on personal protection equipment.

See Section 13 for disposal information.

7 Handling and storage

(Cont'd. on page 4)

according to OSHA HCS (29CFR 1910.1200) and WHMIS 2015 Regulations

Revision: September 11, 2020

Trade name: Potassium Hydroxide,50%w/v (Cont'd. of page 3) · Handling · Precautions for safe handling: Prevent formation of aerosols. Avoid splashes or sprav in enclosed areas. Use only in well ventilated areas. · Information about protection against explosions and fires: No special measures required. Conditions for safe storage, including any incompatibilities • Requirements to be met by storerooms and receptacles: Use only receptacles specifically permitted for this substance/product. Unsuitable material for receptacle: aluminium. Unsuitable material for receptacle: steel. Unsuitable material for receptacle: glass or ceramic. Information about storage in one common storage facility: Store away from foodstuffs. Do not store together with acids. Store away from oxidizing agents. Store away from metals. · Further information about storage conditions: Store in cool, dry conditions in well sealed receptacles. Keep containers tightly sealed. **Specific end use(s)** No relevant information available. 8 Exposure controls/personal protection · Control parameters · Components with limit values that require monitoring at the workplace: The following constituent is the only constituent of the product which has a PEL, TLV or other recommended exposure limit. 1310-58-3 Potassium hydroxide REL (USA) Ceiling limit value: 2 mg/m³

TLV (USA)	Ceiling limit value: 2 mg/m ³
EL (Canada)	Ceiling limit value: 2 mg/m³
	Ceiling limit value: 2 mg/m³
LMPE (Mexico)	Ceiling limit value: 2 mg/m ³

• Exposure controls

· General protective and hygienic measures:

The usual precautionary measures for handling chemicals should be followed.

Keep away from foodstuffs, beverages and feed.

Immediately remove all soiled and contaminated clothing.

Wash hands before breaks and at the end of work.

Do not inhale gases / fumes / aerosols.

Avoid contact with the eyes and skin.

• Engineering controls: No relevant information available.

• Breathing equipment:

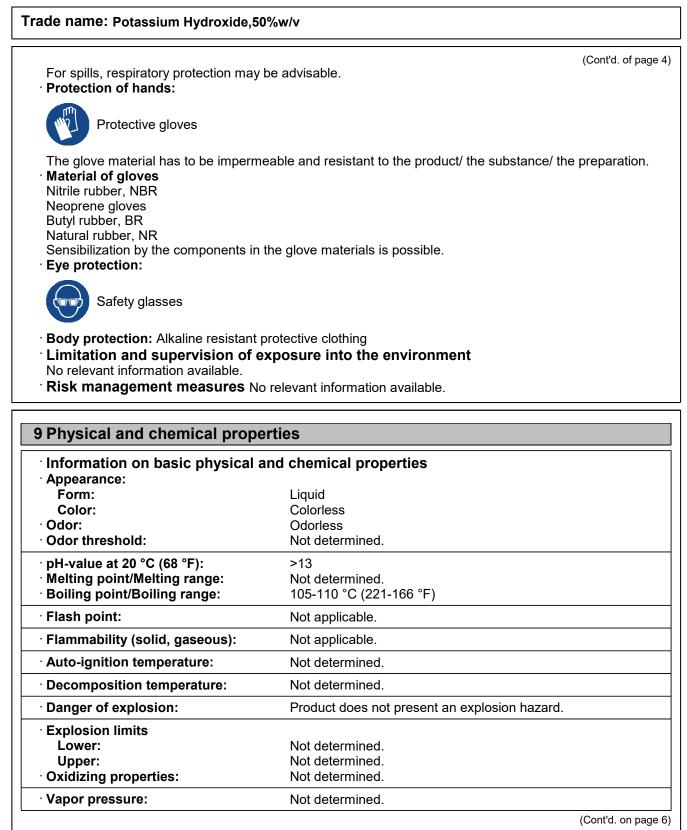

Not required under normal conditions of use.

Use suitable respiratory protective device when aerosol or mist is formed.

10 Stability and reactivity

· Reactivity: No relevant information available.

· Chemical stability: Stable under normal temperatures and pressures.

· Thermal decomposition / conditions to be avoided:

No decomposition if used and stored according to specifications.

Possibility of hazardous reactions

Exothermic reaction with acids.

Corrosive action on metals.

Attacks materials containing glass and silicate.

Toxic fumes may be released if heated above the decomposition point.

• Conditions to avoid No relevant information available.

[·] Incompatible materials

Acids.

Metals.

Oxidizers

Hazardous decomposition products Possible in traces.

11 Toxicological information

[·] Information on toxicological effects

· Acute toxicity: Harmful if swallowed.

· LD/LC50 values that are relevant for classification:

ATE (Acute Toxicity Estimate)

Oral LD50 500-2000 mg/kg (rat)

1310-58-3 Potassium hydroxide

Oral LD50 273 mg/kg (rat)

Primary irritant effect:

• On the skin: Strong caustic effect on skin and mucous membranes.

· On the eye: Strong caustic effect.

· Sensitization: No sensitizing effects known.

(Cont'd. on page 7)

Ecolog	ical information	
Toxicity		

* Persistence and degradability No relevant information available.

· Bioaccumulative potential: No relevant information available.

• Mobility in soil: No relevant information available.

• Ecotoxical effects:

• **Remark:** After neutralization a reduction of the harming action may be recognized

Additional ecological information

· General notes:

Must not reach bodies of water or drainage ditch undiluted or unneutralized.

Rinse off of bigger amounts into drains or the aquatic environment may lead to increased pH-values. A high pH-value harms aquatic organisms. In the dilution of the use-level the pH-value is considerably reduced, so that after the use of the product the aqueous waste, emptied into drains, is only low water-dangerous.

Other adverse effects No relevant information available.

13 Disposal considerations

[·] Waste treatment methods

· Recommendation:

Small amounts may be diluted with plenty of water and washed away. Dispose of bigger amounts in accordance with Local Authority requirements.

(Cont'd. on page 8)

(Cont'd. of page 7)

The user of this material has the responsibility to dispose of unused material, residues and containers in compliance with all relevant local, state and federal laws and regulations regarding treatment, storage and disposal for hazardous and nonhazardous wastes.

[·] Uncleaned packagings

• **Recommendation:** Disposal must be made according to official regulations.

• Recommended cleansing agent: Water, if necessary with cleansing agents.
