according to OSHA HCS (29CFR 1910.1200) and WHMIS 2015 Regulations

Revision: August 21, 2020

Trade name: Potassium Iodide, 10% w/v

(Cont'd. of page 1)

· Other hazards There are no other hazards not otherwise classified that have been identified.

### 3 Composition/information on ingredients

#### · Chemical characterization: Mixtures

· Compone	nts:	
7681-11-0	potassium iodide	10%
	😵 STOT RE 1, H372	
1310-58-3	Potassium hydroxide	0.1%
	<ul> <li>Met. Corr.1, H290; Skin Corr. 1A, H314</li> <li>Acute Tox. 4, H302</li> </ul>	
497-19-8	Sodium carbonate	0.065%
	🚯 Eye Irrit. 2A, H319	
144-55-8	Sodium hydrogencarbonate	0.05%
7732-18-5	Water	89.785%
Additional	information	

#### Additional information:

For the listed ingredient(s), the identity and/or exact percentage(s) are being withheld as a trade secret. For the wording of the listed Hazard Statements, refer to section 16.

#### 4 First-aid measures

#### <sup>•</sup> Description of first aid measures

#### General information:

Symptoms of poisoning may even occur after several hours; therefore medical observation for at least 48 hours after the accident.

- · After inhalation: If experiencing respiratory symptoms: Call a doctor.
- · After skin contact:

Immediately rinse with water.

If skin irritation is experienced, consult a doctor.

· After eye contact:

Remove contact lenses if worn.

Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor.

After swallowing:

Rinse out mouth and then drink plenty of water.

Do not induce vomiting. Seek medical attention.

· Most important symptoms and effects, both acute and delayed:

Gastric or intestinal disorders when ingested.

Nausea in case of ingestion.

• Danger: Causes damage to the thyroid through prolonged or repeated exposure. Route of exposure: Oral. • Indication of any immediate medical attention and special treatment needed:

If medical advice is needed, have product container or label at hand.

#### 5 Fire-fighting measures

#### • Extinguishing media

(Cont'd. on page 3)

according to OSHA HCS (29CFR 1910.1200) and WHMIS 2015 Regulations

Revision: August 21, 2020

Trade name: Potassium Iodide, 10% w/v	
<ul> <li>Suitable extinguishing agents: Use fire fighting measures that suit the environment.</li> <li>For safety reasons unsuitable extinguishing agents: No relevant information available</li> <li>Special hazards arising from the substance or mixture During heating or in case of fire poisonous gases are produced.</li> <li>Advice for firefighters</li> <li>Protective equipment:</li> </ul>	(Cont'd. of page 2)

Wear self-contained respiratory protective device. Wear fully protective suit.

### 6 Accidental release measures

<sup>•</sup> Personal precautions, protective equipment and emergency procedures

For large spills, wear protective clothing.

For large spills, use respiratory protective device against the effects of fumes/dust/aerosol. Ensure adequate ventilation.

• Environmental precautions Do not allow to enter sewers/ surface or ground water.

#### <sup>•</sup> Methods and material for containment and cleaning up

Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Send for recovery or disposal in suitable receptacles.

**Reference to other sections** 

See Section 7 for information on safe handling. See Section 8 for information on personal protection equipment. See Section 13 for disposal information.

### 7 Handling and storage

#### <sup>·</sup> Handling

· Precautions for safe handling:

Prevent formation of aerosols.

Avoid splashes or spray in enclosed areas.

Use only in well ventilated areas.

Information about protection against explosions and fires: No special measures required.

#### <sup>•</sup> Conditions for safe storage, including any incompatibilities

• Requirements to be met by storerooms and receptacles: No special requirements.

· Information about storage in one common storage facility: Store away from foodstuffs.

#### • Further information about storage conditions:

Keep containers tightly sealed.

Store in cool, dry conditions in well sealed receptacles.

• Specific end use(s) No relevant information available.

#### 8 Exposure controls/personal protection

#### <sup>·</sup> Control parameters

· Components with limit values that require monitoring at the workplace:

#### 7681-11-0 potassium iodide

9 Physical and	I chemical properties	

Information on basic physical Appearance:	and chemical properties	
Form:	Liquid	
Color:	Clear, colorless	
Odor:	Odorless	
Odor threshold:	Not determined.	
pH-value:	Not determined.	
Melting point/Melting range:	Not determined.	

according to OSHA HCS (29CFR 1910.1200) and WHMIS 2015 Regulations

Revision: August 21, 2020

ade name: Potassium lodide, 10% v	v/v	
		(Cont'd. of page
· Boiling point/Boiling range:	100-105 °C (212-157 °F)	
· Flash point:	The product is not flammable.	
· Flammability (solid, gaseous):	Not applicable.	
· Auto-ignition temperature:	Not determined.	
Decomposition temperature:	Not determined.	
Danger of explosion:	Product does not present an explosion hazard.	
<ul> <li>Explosion limits</li> <li>Lower:</li> <li>Upper:</li> <li>Oxidizing properties:</li> </ul>	Not determined. Not determined. Not determined.

<ul> <li>Solubility in / Miscibility with Water:</li> </ul>	Fully miscible.	
· Partition coefficient (n-octanol/wat	er): Not determined.	
<ul> <li>Viscosity</li> <li>Dynamic:</li> <li>Kinematic:</li> <li>Other information</li> </ul>	Not determined. Not determined. No relevant information available.	

### 10 Stability and reactivity

· Reactivity: No relevant information available.

- · Chemical stability: Stable under normal temperatures and pressures.
- Thermal decomposition / conditions to be avoided:

No decomposition if used and stored according to specifications.

• Possibility of hazardous reactions

Reacts with strong oxidizing agents.

Toxic fumes may be released if heated above the decomposition point.

- · Conditions to avoid No relevant information available.
- · Incompatible materials No relevant information available.

#### · Hazardous decomposition products

Under fire conditions only: Halogen gases.

Corrosive gases/vapors

Nitrogen oxides (NOx)

### **11** Toxicological information

(Cont'd. on page 6)

Revision: August 21, 2020

Trade name: Potassium Iodide, 10% w/v	
	ont'd. of page 5)
<ul> <li>Information on toxicological effects</li> <li>Acute toxicity: Based on available data, the classification criteria are not met.</li> </ul>	
· LD/LC50 values that are relevant for classification:	
7681-11-0 potassium iodide	
Oral LD50 3118 mg/kg (rat)	
<ul> <li>Primary irritant effect:</li> <li>On the skin: Based on available data, the classification criteria are not met.</li> <li>On the eye: Based on available data, the classification criteria are not met.</li> <li>Sensitization: Based on available data, the classification criteria are not met.</li> </ul>	
· IARC (International Agency for Research on Cancer):	
None of the ingredients are listed.	
· NTP (National Toxicology Program):	
None of the ingredients are listed.	
• OSHA-Ca (Occupational Safety & Health Administration):	
None of the ingredients are listed.	
<ul> <li>Probable route(s) of exposure: Ingestion. Inhalation. Eye contact. Skin contact.</li> <li>Acute effects (acute toxicity, irritation and corrosivity): No relevant information available.</li> <li>Repeated dose toxicity: Causes damage to the thyroid through prolonged or repeated exposure. Route of exposure: O</li> <li>Germ cell mutagenicity: Based on available data, the classification criteria are not met.</li> <li>Carcinogenicity: Based on available data, the classification criteria are not met.</li> <li>STOT-single exposure: Based on available data, the classification criteria are not met.</li> <li>STOT-repeated exposure: Causes damage to the thyroid through prolonged or repeated exposure. Route of exposure: O</li> <li>Aspiration hazard: Based on available data, the classification criteria are not met.</li> </ul>	
12 Ecological information         • Toxicity         • Aquatic toxicity No relevant information available.         • Persistence and degradability No relevant information available.         • Bioaccumulative potential: No relevant information available.         • Mobility in soil: No relevant information available.         • Additional ecological information         • General notes:	
Do not allow undiluted product or large quantities of it to reach ground water, water course system.	e or sewage

• Other adverse effects No relevant information available.

### 13 Disposal considerations

### <sup>·</sup> Waste treatment methods

· Recommendation:

Must not be disposed of together with household garbage. Do not allow product to reach sewage system.

<sup>•</sup> Uncleaned packagings

• **Recommendation:** Disposal must be made according to official regulations.

• Recommended cleansing agent: Water, if necessary with cleansing agents.

4 Transport information
