

# Safety Data Sheet

## SA1677SS

Version number: 2.3

Revision: 2026-01-06

### SECTION 1: Identification

#### 1.1 Product identifier

Trade name **Sulfuric Acid, 7.7N**  
SDS Identifier **SA1677SS**

#### 1.2 Relevant identified uses of the substance or mixture and uses advised against

Relevant identified uses laboratory and analytical use

#### 1.3 Details of the supplier of the safety data sheet

AquaPhoenix Scientific  
860 Gitts Run Road  
Hanover PA 17331  
United States

Telephone: (866) 632-1291  
e-mail: [info@aquaphoenixsci.com](mailto:info@aquaphoenixsci.com)  
Website: <https://www.aquaphoenixsci.com/>

#### 1.4 Emergency telephone number

Emergency information service ChemTel Inc.: 1-800-255-3924, +01-813-248-0585

### SECTION 2: Hazard(s) identification

#### 2.1 Classification of the substance or mixture

Classification acc. to OSHA "Hazard Communication Standard" (29 CFR 1910.1200, Rev. 2024)

| Hazard class                                          | Category | Hazard class and category | Hazard statement |
|-------------------------------------------------------|----------|---------------------------|------------------|
| acute toxicity (inhal.)                               | 3        | Acute Tox. 3              | H331             |
| skin corrosion/irritation                             | 1        | Skin Corr. 1              | H314             |
| serious eye damage/eye irritation                     | 1        | Eye Dam. 1                | H318             |
| carcinogenicity                                       | 1A       | Carc. 1A                  | H350             |
| hazardous to the aquatic environment - acute hazard   | 3        | Aquatic Acute 3           | H402             |
| hazardous to the aquatic environment - chronic hazard | 2        | Aquatic Chronic 2         | H411             |

For full text of abbreviations: see SECTION 16.

The most important adverse physicochemical, human health and environmental effects

Skin corrosion produces an irreversible damage to the skin; namely, visible necrosis through the epidermis and into the dermis. Spillage and fire water can cause pollution of watercourses.

#### 2.2 Label elements

Labelling acc. to OSHA "Hazard Communication Standard" (29 CFR 1910.1200, Rev. 2024)

- Signal word **danger**

- Pictograms

GHS05, GHS06, GHS08,  
GHS09

# Safety Data Sheet

## SA1677SS

Version number: 2.3

Revision: 2026-01-06

- Hazard statements

|      |                                                  |
|------|--------------------------------------------------|
| H314 | Causes severe skin burns and eye damage.         |
| H331 | Toxic if inhaled.                                |
| H350 | May cause cancer.                                |
| H402 | Harmful to aquatic life.                         |
| H411 | Toxic to aquatic life with long lasting effects. |

- Precautionary statements

|                |                                                                                                                                   |
|----------------|-----------------------------------------------------------------------------------------------------------------------------------|
| P203           | Obtain, read and follow all safety instructions before use.                                                                       |
| P260           | Do not breathe dusts or mists.                                                                                                    |
| P264+P265      | Wash hands thoroughly after handling. Do not touch eyes.                                                                          |
| P271           | Use only outdoors or with adequate ventilation.                                                                                   |
| P273           | Avoid release to the environment.                                                                                                 |
| P280           | Wear protective gloves/protective clothing/eye protection/face protection/hearing protection.                                     |
| P301+P330+P331 | IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.                                                                                |
| P302+P361+P354 | IF ON SKIN: Take off immediately all contaminated clothing. Immediately rinse with water for several minutes.                     |
| P304+P340      | IF INHALED: Remove person to fresh air and keep comfortable for breathing.                                                        |
| P305+P354+P338 | IF IN EYES: Immediately rinse with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. |
| P316           | Get emergency medical help immediately.                                                                                           |
| P318           | IF exposed or concerned, get medical advice.                                                                                      |
| P321           | Specific treatment (see on this label).                                                                                           |
| P363           | Wash contaminated clothing before reuse.                                                                                          |
| P391           | Collect spillage.                                                                                                                 |
| P403+P233      | Store in a well-ventilated place. Keep container tightly closed.                                                                  |
| P405           | Store locked up.                                                                                                                  |
| P501           | Dispose of contents/container in accordance with local/regional/national/international regulations.                               |

- Hazardous ingredients for labelling                      sulfuric acid

### 2.3 Other hazards

### Results of PBT and vPvB assessment

Does not contain a PBT-/vPvB-substance at a concentration of  $\geq 0.1\%$ .

## Endocrine disrupting properties

Does not contain an endocrine disruptor (ED) in a concentration of  $\geq 0.1\%$ .

### SECTION 3: Composition/information on ingredients

### 3.1 Substances

Not relevant (mixture)

### 3.2 Mixtures

### Description of the mixture

### Remarks

For full text of abbreviations: see SECTION 16

## SECTION 4: First-aid measures

### 4.1 Description of first-aid measures

#### General notes

Do not leave affected person unattended. Remove victim out of the danger area. Keep affected person warm, still and covered. Take off immediately all contaminated clothing. In all cases of doubt, or when symptoms persist, seek medical advice. In case of unconsciousness place person in the recovery position. Never give anything by mouth.

#### Following inhalation

If breathing is irregular or stopped, immediately seek medical assistance and start first aid actions. In case of respiratory tract irritation, consult a physician. Provide fresh air.

#### Following skin contact

Wash with plenty of soap and water.

#### Following eye contact

Remove contact lenses, if present and easy to do. Continue rinsing. Irrigate copiously with clean, fresh water for at least 10 minutes, holding the eyelids apart.

#### Following ingestion

Rinse mouth with water (only if the person is conscious). Do NOT induce vomiting.

### 4.2 Most important symptoms and effects, both acute and delayed

Symptoms and effects are not known to date.

### 4.3 Indication of any immediate medical attention and special treatment needed

Medical attention may be necessary if the product gets into the eyes or on the skin.

## SECTION 5: Fire-fighting measures

### 5.1 Extinguishing media

#### Suitable extinguishing media

Water spray, Alcohol resistant foam, BC-powder, Carbon dioxide (CO<sub>2</sub>)

#### Unsuitable extinguishing media

Water jet

### 5.2 Special hazards arising from the substance or mixture

#### Hazardous combustion products

Carbon monoxide (CO), Carbon dioxide (CO<sub>2</sub>), Sulfur oxides (SO<sub>x</sub>)

### 5.3 Advice for firefighters

In case of fire and/or explosion do not breathe fumes. Coordinate firefighting measures to the fire surroundings. Do not allow firefighting water to enter drains or water courses. Collect contaminated firefighting water separately. Fight fire with normal precautions from a reasonable distance.

# Safety Data Sheet

## SA1677SS

Version number: 2.3

Revision: 2026-01-06

### SECTION 6: Accidental release measures

#### 6.1 Personal precautions, protective equipment and emergency procedures

For non-emergency personnel

Remove persons to safety.

For emergency responders

Wear breathing apparatus if exposed to vapors/dust/aerosols/gases.

#### 6.2 Environmental precautions

Keep away from drains, surface and ground water. Retain contaminated washing water and dispose of it. If substance has entered a water course or sewer, inform the responsible authority.

#### 6.3 Methods and material for containment and cleaning up

Advice on how to contain a spill

Covering of drains

Advice on how to clean up a spill

Wipe up with absorbent material (e.g. cloth, fleece). Collect spillage: sawdust, kieselgur (diatomite), sand, universal binder

Appropriate containment techniques

Use of adsorbent materials.

Other information relating to spills and releases

Place in appropriate containers for disposal. Ventilate affected area.

#### 6.4 Reference to other sections

Hazardous combustion products: see section 5. Personal protective equipment: see section 8. Incompatible materials: see section 10. Disposal considerations: see section 13.

### SECTION 7: Handling and storage

#### 7.1 Precautions for safe handling

Recommendations

Wear impact- and splash-resistant eyewear.

- Measures to prevent fire as well as aerosol and dust generation

Use local and general ventilation. Use only in well-ventilated areas.

- Handling of incompatible substances or mixtures

- Keep away from

Caustic solutions

Advice on general occupational hygiene

Wash hands after use. Do not eat, drink and smoke in work areas. Remove contaminated clothing and protective equipment before entering eating areas. Never keep food or drink in the vicinity of chemicals. Never place chemicals in containers that are normally used for food or drink. Keep away from food, drink and animal feedingstuffs.

#### 7.2 Conditions for safe storage, including any incompatibilities

Control of the effects

Protect against external exposure, such as

heat, high temperatures, light, UV-radiation/sunlight

- Ventilation requirements

Keep any substance that emits harmful vapors or gases in a place that allows these to be permanently extracted.

- Packaging compatibilities

Only packagings which are approved (e.g. acc. to the Dangerous Goods Regulations) may be used.

##### Notation

|           |                                                                                                                                                                          |
|-----------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Ceiling-C | ceiling value is a limit value above which exposure should not occur                                                                                                     |
| STEL      | short-term exposure limit: a limit value above which exposure should not occur and which is related to a 15-minute period (unless otherwise specified)                   |
| t         | thoracic fraction                                                                                                                                                        |
| TWA       | time-weighted average (long-term exposure limit): measured or calculated in relation to a reference period of 8 hours time-weighted average (unless otherwise specified) |

#### 8.2 Exposure controls

##### Appropriate engineering controls

General ventilation.

##### Individual protection measures (personal protective equipment)

##### Eye/face protection

Wear eye/face protection.

##### Skin protection

##### - Hand protection

Wear suitable gloves. Chemical protection gloves are suitable, which are tested according to EN 374. Recommended: Disposable neoprene gloves, 0.1 - 0.2 mm thick, 15-120 minute breakthrough times. Check leak-tightness/impermeability prior to use. In the case of wanting to use the gloves again, clean them before taking off and air them well. For special purposes, it is recommended to check the resistance to chemicals of the protective gloves mentioned above together with the supplier of these gloves.

##### - Other protection measures

Wash hands thoroughly after handling.

##### Respiratory protection

In case of inadequate ventilation wear respiratory protection.

##### Environmental exposure controls

Use appropriate container to avoid environmental contamination. Keep away from drains, surface and ground water.

### SECTION 9: Physical and chemical properties

#### 9.1 Information on basic physical and chemical properties

**Product description:** See website or catalog for details.

|--------------------------|-----------------------|

## SECTION 10: Stability and reactivity

### 10.1 Reactivity

Concerning incompatibility: see below "Conditions to avoid" and "Incompatible materials".

# Safety Data Sheet

## SA1677SS

Version number: 2.3

Revision: 2026-01-06

### 10.2 Chemical stability

See below "Conditions to avoid".

### 10.3 Possibility of hazardous reactions

No known hazardous reactions.

### 10.4 Conditions to avoid

There are no specific conditions known which have to be avoided.

### 10.5 Incompatible materials

Oxidizers

### 10.6 Hazardous decomposition products

Reasonably anticipated hazardous decomposition products produced as a result of use, storage, spill and heating are not known. Hazardous combustion products: see section 5.

## SECTION 11: Toxicological information

### 11.1 Information on toxicological effects

Test data are not available for the complete mixture.

#### Classification procedure

The method for classification of the mixture is based on ingredients of the mixture (additivity formula).

#### Classification acc. to OSHA "Hazard Communication Standard" (29 CFR 1910.1200, Rev. 2024)

#### Acute toxicity

Toxic if inhaled.

#### - Acute toxicity estimate (ATE)

Inhalation: vapor 8.918 mg/l/4h

#### Acute toxicity estimate (ATE) of components

| Name of substance | CAS No    | Exposure route        | ATE          |
|-------------------|-----------|-----------------------|--------------|
| sulfuric acid     | 7664-93-9 | inhalation: vapor     | 3 mg/l/4h    |
| sulfuric acid     | 7664-93-9 | inhalation: dust/mist | 0.85 mg/l/4h |

#### Skin corrosion/irritation

Causes severe skin burns and eye damage.

#### Serious eye damage/eye irritation

Causes serious eye damage.

#### Respiratory or skin sensitization

Shall not be classified as a respiratory or skin sensitizer.

#### Germ cell mutagenicity

Shall not be classified as germ cell mutagenic.

#### Carcinogenicity

May cause cancer.

# Safety Data Sheet

## SA1677SS

Version number: 2.3

Revision: 2026-01-06

### IARC Monographs on the Evaluation of Carcinogenic Risks to Humans

| Name of substance | CAS No    | Classification | Number |
|-------------------|-----------|----------------|--------|
| sulfuric acid     | 7664-93-9 | 1              |        |

#### Legend

1 Carcinogenic to humans

### National Toxicology Program (United States): Report on Carcinogens

| Name of substance | CAS No    | Classification                 | Number                    |
|-------------------|-----------|--------------------------------|---------------------------|
| sulfuric acid     | 7664-93-9 | Known to be a human carcinogen | 9th Report on Carcinogens |

#### Reproductive toxicity

Shall not be classified as a reproductive toxicant.

#### Specific target organ toxicity - single exposure

Shall not be classified as a specific target organ toxicant (single exposure).

#### Specific target organ toxicity - repeated exposure

Shall not be classified as a specific target organ toxicant (repeated exposure).

#### Aspiration hazard

Shall not be classified as presenting an aspiration hazard.

## 11.2 Information on other hazards

There is no additional information.

## SECTION 12: Ecological information

### 12.1 Toxicity

Toxic to aquatic life with long lasting effects.

#### Aquatic toxicity (acute) of components

| Name of substance | CAS No    | Endpoint | Value          | Species               | Exposure time |
|-------------------|-----------|----------|----------------|-----------------------|---------------|
| sulfuric acid     | 7664-93-9 | LC50     | >16 – <28 mg/l | fish                  | 96 h          |
| sulfuric acid     | 7664-93-9 | EC50     | >100 mg/l      | aquatic invertebrates | 48 h          |
| sulfuric acid     | 7664-93-9 | ErC50    | >100 mg/l      | algae                 | 72 h          |

### 12.2 Persistence and degradability

Data are not available.

### 12.3 Bioaccumulative potential

Data are not available.

#### Bioaccumulative potential of components

| Name of substance | CAS No    | BCF | Log KOW                     | BOD5/COD |
|-------------------|-----------|-----|-----------------------------|----------|
| Water             | 7732-18-5 |     | -0.467 (pH value: 7, 20 °C) |          |

# Safety Data Sheet

## SA1677SS

Version number: 2.3

Revision: 2026-01-06

### 12.4 Mobility in soil

Data are not available.

### 12.5 Results of PBT and vPvB assessment

Does not contain a PBT-/vPvB-substance at a concentration of  $\geq 0.1\%$ .

### 12.6 Endocrine disrupting properties

Does not contain an endocrine disruptor (ED) in a concentration of  $\geq 0.1\%$ .

### 12.7 Other adverse effects

Data are not available.

## SECTION 13: Disposal considerations

### 13.1 Waste treatment methods

Please consider the relevant national or regional provisions.

## SECTION 14: Transport information

### 14.1 UN number

|           |         |
|-----------|---------|
| DOT       | UN 2796 |
| IMDG-Code | UN 2796 |
| ICAO-TI   | UN 2796 |

### 14.2 UN proper shipping name

|           |                |
|-----------|----------------|
| DOT       | Sulphuric acid |
| IMDG-Code | SULPHURIC ACID |
| ICAO-TI   | Sulphuric acid |

### 14.3 Transport hazard class(es)

|           |   |
|-----------|---|
| DOT       | 8 |
| IMDG-Code | 8 |
| ICAO-TI   | 8 |

### 14.4 Packing group

|           |    |
|-----------|----|
| DOT       | II |
| IMDG-Code | II |
| ICAO-TI   | II |

### 14.5 Environmental hazards

|                                                           |                                      |
|-----------------------------------------------------------|--------------------------------------|
|                                                           | hazardous to the aquatic environment |
| Environmentally hazardous substance (aquatic environment) | sulfuric acid                        |

### 14.6 Other relevant information

Shipping container markings and labels, received from AquaPhoenix, may vary from the above information. Products that are regulated for transport will be packaged by AquaPhoenix as Dangerous Goods in Excepted Quantities according to IATA, US DOT, and IMDG regulations. AquaPhoenix may also elect to ship certain products as UN 3316 Chemical Kit, Hazard Class 9, Packing Group II or III. In case of reshipment, it is the responsibility of the shipper to determine appropriate labels and markings in accordance with applicable transportation regulations.

### 14.7 Maritime transport in bulk according to IMO instruments

The cargo is not intended to be carried in bulk.

| OSHA           | Occupational Safety and Health Administration (United States)                                                                                     |
| PBT            | Persistent, Bioaccumulative and Toxic                                                                                                             |
| PEL            | Permissible exposure limit                                                                                                                        |
| ppm            | Parts per million                                                                                                                                 |
| RTECS          | Registry of Toxic Effects of Chemical Substances (database of NIOSH with toxicological information)                                               |
| Skin Corr.     | Corrosive to skin                                                                                                                                 |
| Skin Irrit.    | Irritant to skin                                                                                                                                  |
| STEL           | Short-term exposure limit                                                                                                                         |
| TLV®           | Threshold Limit Values                                                                                                                            |
| TWA            | Time-weighted average                                                                                                                             |
| vPvB           | Very Persistent and very Bioaccumulative                                                                                                          |

### Key literature references and sources for data

Globally Harmonized System of Classification and Labelling of Chemicals ("Purple book").

Transport of dangerous goods by road or rail (49 CFR US DOT). International Maritime Dangerous Goods Code (IMDG).

Dangerous Goods Regulations (DGR) for the air transport (IATA).

### Classification procedure

Physical and chemical properties: The classification is based on tested mixture.

Health hazards, Environmental hazards: The method for classification of the mixture is based on ingredients of the mixture (additivity formula).

# Safety Data Sheet

## SA1677SS

Version number: 2.3

Revision: 2026-01-06

### List of relevant phrases (code and full text as stated in section 2 and 3)

| Code | Text                                             |
|------|--------------------------------------------------|
| H314 | Causes severe skin burns and eye damage.         |
| H318 | Causes serious eye damage.                       |
| H331 | Toxic if inhaled.                                |
| H350 | May cause cancer.                                |
| H402 | Harmful to aquatic life.                         |
| H411 | Toxic to aquatic life with long lasting effects. |
