Route of exposure: Oral.</li> <li>Label elements</li> <li>GHS label elements The product is classified and labeled according to the Globally Harmonized System (GHS).</li> <li>Hazard pictograms:</li> </ul>

according to OSHA HCS (29CFR 1910.1200) and WHMIS 2015 Regulations

Revision: August 23, 2020

### Trade name: Sodium lodide

(Cont'd. of page 1)

P501 Dispose of contents/container in accordance with local/regional/national/international regulations.

• Other hazards There are no other hazards not otherwise classified that have been identified.

#### **3** Composition/information on ingredients

• Chemical characterization: Substances • CAS No. Description

7681-82-5 sodium iodide

### 4 First-aid measures

<sup>•</sup> Description of first aid measures

#### • General information:

Symptoms of poisoning may even occur after several hours; therefore medical observation for at least 48 hours after the accident.

- After inhalation: Supply fresh air; consult doctor in case of complaints.
- · After skin contact:

Brush off loose particles from skin.

Rinse with warm water.

If skin irritation is experienced, consult a doctor.

- · After eye contact: Remove contact lenses if worn.
- · After swallowing:

Rinse out mouth and then drink plenty of water.

Do not induce vomiting; immediately call for medical help.

Most important symptoms and effects, both acute and delayed:

Gastric or intestinal disorders when ingested.

Nausea in case of ingestion.

#### Danger:

May be harmful if swallowed.

Causes damage to the thyroid through prolonged or repeated exposure. Route of exposure: Oral.

Indication of any immediate medical attention and special treatment needed:

If medical advice is needed, have product container or label at hand.

#### **5** Fire-fighting measures

- <sup>•</sup> Extinguishing media
- Suitable extinguishing agents: Use fire fighting measures that suit the environment.
- · For safety reasons unsuitable extinguishing agents: No relevant information available.
- Special hazards arising from the substance or mixture
- During heating or in case of fire poisonous gases are produced.
- <sup>•</sup> Advice for firefighters
- · Protective equipment:

Wear self-contained respiratory protective device.

Wear fully protective suit.

(Cont'd. on page 3)

according to OSHA HCS (29CFR 1910.1200) and WHMIS 2015 Regulations

Revision: August 23, 2020

#### Trade name: Sodium lodide

(Cont'd. of page 2)

#### 6 Accidental release measures

#### • Personal precautions, protective equipment and emergency procedures

Wear protective equipment. Keep unprotected persons away.

For large spills, use respiratory protective device against the effects of fumes/dust/aerosol. Ensure adequate ventilation.

• Environmental precautions Do not allow to enter sewers/ surface or ground water.

#### Methods and material for containment and cleaning up

Sweep up and place into an appropriate container.

Send for recovery or disposal in suitable receptacles.

#### • Reference to other sections

See Section 7 for information on safe handling. See Section 8 for information on personal protection equipment. See Section 13 for disposal information.

#### 7 Handling and storage

#### · Handling

· Precautions for safe handling: Use only in well ventilated areas.

Information about protection against explosions and fires:

During heating or in case of fire poisonous gases are produced.

• Conditions for safe storage, including any incompatibilities

• Requirements to be met by storerooms and receptacles: No special requirements.

Information about storage in one common storage facility:

Store away from foodstuffs.

Do not store together with acids.

Store away from oxidizing agents.

• Further information about storage conditions:

Keep containers tightly sealed.

Store in cool, dry conditions in well sealed receptacles.

**Specific end use(s)** No relevant information available.

#### 8 Exposure controls/personal protection

#### · Control parameters

• Components with limit values that require monitoring at the workplace:

#### 7681-82-5 sodium iodide

TLV (USA) Long-term value: NIC-0.015\*\* mg/m<sup>3</sup>, (0.01\*) ppm NIC-Skin; \*inhalable fraction & vapor \*\*inhal.;

#### • Exposure controls

#### General protective and hygienic measures:

The usual precautionary measures for handling chemicals should be followed.

Keep away from foodstuffs, beverages and feed.

Wash hands before breaks and at the end of work.

**Engineering controls:** Provide adequate ventilation.

Information on basic physical and chemical properties				
	and chemical properties			
Appearance: Form:	Crystalline			
Color:	Red-violet			
Odor:	Characteristic			
Odor threshold:	Not determined.			
pH-value:	Not applicable.			
Melting point/Melting range:	661 °C (1221.8 °F)			
Boiling point/Boiling range:	1304 °C (2379.2 °F)			
Flash point:	The product is not flammable.			
Flammability (solid, gaseous):	Product is not flammable.			
Auto-ignition temperature:	Not determined.			
Decomposition temperature:	Not determined.			
Danger of explosion:	Product does not present an explosion hazard.			
Explosion limits				
Lower:	Not determined.			
Upper:	Not determined.			
Oxidizing properties:	Non-oxidizing.			
Vapor pressure:	Not determined.			
Density at 20 °C (68 °F):	3.67 g/cm³ (30.63 lbs/gal)			
Relative density:	Not determined.

STOT-repeated exposure:	
Causes damage to the thyroid through prolonged or repeated exposure. Route of exposu	ıre: Oral.
Aspiration hazard: Based on available data, the classification criteria are not met.	

## **12 Ecological information**

<sup>·</sup> Toxicity

· Aquatic toxicity No relevant information available.

- · Persistence and degradability No relevant information available.
- · Bioaccumulative potential: No relevant information available.
- Mobility in soil: No relevant information available.
- Additional ecological information
- · General notes:

Do not allow undiluted product or large quantities of it to reach ground water, water course or sewage system.

Other adverse effects No relevant information available.

### 13 Disposal considerations

### <sup>•</sup> Waste treatment methods

· Recommendation:

The user of this material has the responsibility to dispose of unused material, residues and containers in compliance with all relevant local, state and federal laws and regulations regarding treatment, storage and disposal for hazardous and nonhazardous wastes.

#### <sup>·</sup> Uncleaned packagings

· Recommendation: Disposal must be made according to official regulations.

### **14 Transport information**

#### · UN-Number
