# Classification of the substance or mixture

The product is not classified as hazardous according to the Globally Harmonized System (GHS).

<sup>-</sup> Label elements

· GHS label elements Not regulated.

- · Hazard pictograms: Not regulated.
- Signal word: None
- · Hazard statements: None.
- · Precautionary statements: None.

· Other hazards There are no other hazards not otherwise classified that have been identified.

· Chemical c	haracterization: Mixtures		
· Componen	ts:		
7732-18-5	Water		>80%
10102-17-7	Sodium Thiosulfate, Pentahydrate		<10%
1303-96-4	Disodium tetraborate, decahydrate	<ul> <li>Repr. 1B, H360</li> <li>Eye Irrit. 2A, H319</li> </ul>	<0.1%

according to OSHA HCS (29CFR 1910.1200) and WHMIS 2015 Regulations

Revision: January 17, 2020

#### Trade name: Sodium Thiosulfate, 0.1N

(Cont'd. of page 1)

For the listed ingredient(s), the identity and/or exact percentage(s) are being withheld as a trade secret. For the wording of the listed Hazard Statements, refer to section 16.

### 4 First-aid measures

#### Description of first aid measures

· After inhalation: Supply fresh air; consult doctor in case of complaints.

• After skin contact:

Wash with soap and water.

If skin irritation is experienced, consult a doctor.

• After eye contact:

Remove contact lenses if worn.

Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor.

• After swallowing:

Rinse out mouth and then drink plenty of water.

Do not induce vomiting; immediately call for medical help.

Most important symptoms and effects, both acute and delayed:

Gastric or intestinal disorders when ingested.

- Nausea in case of ingestion.
- · Indication of any immediate medical attention and special treatment needed:

No relevant information available.

#### 5 Fire-fighting measures

#### <sup>·</sup> Extinguishing media

• Suitable extinguishing agents:

The product is not flammable.

Use fire fighting measures that suit the environment.

- · For safety reasons unsuitable extinguishing agents: No relevant information available.
- Special hazards arising from the substance or mixture
- Formation of toxic gases is possible during heating or in case of fire.
- Advice for firefighters
- · Protective equipment:

Wear self-contained respiratory protective device.

Wear fully protective suit.

## 6 Accidental release measures

# · Personal precautions, protective equipment and emergency procedures

Ensure adequate ventilation.

For large spills, wear protective clothing.

• Environmental precautions Do not allow to enter sewers/ surface or ground water.

#### • Methods and material for containment and cleaning up

Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Clean the affected area carefully; suitable cleaners are:

Clean the anected area carefully, suitable cleane

Warm water

Send for recovery or disposal in suitable receptacles.

(Cont'd. on page 3)

according to OSHA HCS (29CFR 1910.1200) and WHMIS 2015 Regulations

Revision: January 17, 2020

(Cont'd. of page 2)

### Trade name: Sodium Thiosulfate, 0.1N

#### **Reference to other sections**

See Section 7 for information on safe handling. See Section 8 for information on personal protection equipment. See Section 13 for disposal information.

## 7 Handling and storage

#### <sup>·</sup> Handling

#### Precautions for safe handling:

Prevent formation of aerosols.

Use only in well ventilated areas.

Avoid splashes or spray in enclosed areas.

· Information about protection against explosions and fires: No special measures required.

### <sup>•</sup> Conditions for safe storage, including any incompatibilities

Requirements to be met by storerooms and receptacles:

Store in cool, dry conditions in well sealed receptacles.

· Information about storage in one common storage facility:

Store away from foodstuffs.

Store away from oxidizing agents.

**Specific end use(s)** No relevant information available.

## 8 Exposure controls/personal protection

#### · Control parameters

· Components with limit values that require monitoring at the workplace:

The following constituent is the only constituent of the product which has a PEL, TLV or other recommended exposure limit.

#### • Exposure controls

#### General protective and hygienic measures:

The usual precautionary measures for handling chemicals should be followed.

Keep away from foodstuffs, beverages and feed.

Immediately remove all soiled and contaminated clothing.

Wash hands before breaks and at the end of work.

Avoid contact with the eyes.

Avoid close or long term contact with the skin.

Avoid breathing mist, vapors, or spray.

• Engineering controls: No relevant information available.

### · Breathing equipment:

Not required under normal conditions of use.

Use suitable respiratory protective device in case of insufficient ventilation.

For large spills, respiratory protection may be advisable.

#### Protection of hands:

Protective gloves

• Eye protection:

(Cont'd. on page 4)

according to OSHA HCS (29CFR 1910.1200) and WHMIS 2015 Regulations

Revision: January 17, 2020

Trade name: Sodium Thiosulfate, 0.1N

(Cont'd. of page 3)

Safety glasses

Follow relevant national guidelines concerning the use of protective eyewear.

Body protection:

Protective work clothing Protective work clothing

Limitation and supervision of exposure into the environment No special requirements.

Risk management measures No special requirements.

9 Physical and chemical properties			
· Information on basic physical and chemical properties			
••	· Appearance:		
Form:	Liquid		
Color:	Clear		
Odori	Colorless		
· Odor: · Odor threshold:	Nearly odorless Not determined.		
· pH-value:	Not determined.		
Melting point/Melting range:	Not determined.		
<ul> <li>Boiling point/Boiling range:</li> </ul>	>100 °C (>212 °F)		
· Flash point:	The product is not flammable.		
· Flammability (solid, gaseous):	Not applicable.		
· Auto-ignition temperature:	Not determined.		
· Decomposition temperature:	Not determined.		
· Danger of explosion:	Product does not present an explosion hazard.		
· Explosion limits			
Lower:	Not determined.		
Upper:	Not determined.		
<ul> <li>Oxidizing properties:</li> </ul>	Not determined.		
· Vapor pressure at 20 °C (68 °F):	23 hPa (17.3 mm Hg)

Trade name: Sodium Thiosulfate, 0.1N

(Cont'd. of page 5)

- **STOT-single exposure:** Based on available data, the classification criteria are not met.
- · STOT-repeated exposure: Based on available data, the classification criteria are not met.
- Aspiration hazard: Based on available data, the classification criteria are not met.

## **12 Ecological information**

· Toxicity

· Aquatic toxicity No relevant information available.

- **Persistence and degradability** No relevant information available.
- · Bioaccumulative potential: No relevant information available.
- Mobility in soil: No relevant information available.
- Additional ecological information
- · General notes:

Do not allow undiluted product or large quantities of it to reach ground water, water course or sewage system.

Other adverse effects No relevant information available.

## 13 Disposal considerations

#### <sup>•</sup> Waste treatment methods

#### · Recommendation:

Smaller quantities can be disposed of with household waste.

The user of this material has the responsibility to dispose of unused material, residues and containers in compliance with all relevant local, state and federal laws and regulations regarding treatment, storage and disposal for hazardous and nonhazardous wastes.

#### <sup>·</sup> Uncleaned packagings

• Recommendation: Disposal must be made according to official regulations.
